

1.0 COST AND MANAGEMENT ACCOUNTING

Managers need detailed information about the working of the business to enable them plan, control and make decisions. The cost and management accounting system provide financial information regarding the financial aspects of business performance needed by management.

1.1 Management accounting

Management accounting is the application of the principles of accounting and financial management to create, protect, preserve and increase value so as to deliver that value to the stakeholders of profit and not for profit enterprises both public and private.

1.2 Cost accounting

Cost accounting is the establishment of budgets, standard costs and actual costs of operations, processes, activities or products and the analysis of variances profitability or social use of funds.

- 1.21 Cost accounting and management accounting are terms which are used interchangeably. However, this is not entirely right.
- 1.22 Cost accounting is part of management accounting. Cost accounting provides a bank of data for the management accountant to use. Cost accounting aims to establish the following:
 - a) the cost of goods produced or services provided;
 - b) the cost of a department or work section;
 - c) what revenues have been;
 - d) the profitability of a product, service or department or the organization in total;
 - e) selling prices;
 - f) the value of stocks of goods;
 - g) future costs of goods and services; and
 - h) comparison of actual and budgeted costs
