Literature for Little Bodhisattvas Natasha Heller,2025-01-31 *Literature for Little Bodhisattvas* Natasha Heller makes two key interventions first she argues that picturebooks are a new genre of Buddhist writing and second she calls attention to an emergent family Buddhism in Taiwan that fashions children as religious subjects through shared attention with adult readers Surveying Taiwanese Buddhism from the ground up Heller explores the changing family dynamics that have made children into a crucial audience for Buddhist education and the home a key site for Buddhist cultivation By taking picturebooks seriously as part of the Buddhist textual tradition Heller demonstrates their engagement with canonical sources alongside innovations for modern audiences Close readings analyzing both text and image trace narrative themes about Buddhist figures and connect representations of buddhas and bodhisattvas to a visual culture where new values such as cuteness are articulated Heller shows that picturebooks have become an integral part of a contemporary Buddhist education that equips children with strategies to interpret everyday life in Buddhist ways and provides religious models for action in the modern world *Literature for Little Bodhisattvas* is a pathbreaking work revealing how contemporary picturebooks reframe Buddhism and offer fresh perspectives on its teachings and ideals of family for both children and adults **Asian Comics** John A. Atmospheres of Breathing Lenart Škof, Petri Berndtson, 2018-04-01 Attempts to think anew about philosophical questions from the perspective of breath and breathing As a physiological or biological matter breath is mostly considered to be mechanical and thoughtless By expanding on the insights of many religions and therapeutic practices which emphasize the cultivation of breath the contributors argue that breath should be understood as fundamentally and comprehensively intertwined with human life and experience Various dimensions of the respiratory world are referred to as atmospheres that encircle and connect human existence coexistence and the world Drawing from a number of traditions of breathing including from Indian and East Asian religion and philosophy the book considers breath in relation to ontological hermeneutical phenomenological ethical and aesthetic concerns in philosophy The wide ranging topics include poetry theater environmental issues and health feminism and media studies Atmospheres of Breathing the first collection of its kind explores an emerging respiratory philosophy of great consequence for philosophy and other fields Its rich and diverse essays many written by the pioneers of this radically new direction show the deep historical and intercultural roots of such a philosophy ranging from treatments of forerunners like Zhuangzi and Heraclitus to contemporary theorists of breathing such as Abram and Kleinberg Levin Presented here is the vision of innovative ways in which philosophy on its own or inspired by spiritual practices can bring breathing into the center of its concern This is a landmark book that scintillates with brilliant and original insights If taken as seriously as it deserves this book has the potential to revolutionize contemporary and future thought Edward S Casey author of The World at a Glance and The World on Edge Air the misunderstood element finds ways and means of advancing to places where no one reckons with its presence and more significantly it makes space on its own strength for strange places where there were previously none Peter Sloterdijk

The Conversation Frame Esther Pascual, Sergei Sandler, 2016-11-01 This edited volume brings together the latest research on fictive interaction that is the use of the frame of ordinary conversation as a means to structure cognition talking to oneself discourse monologues organized as dialogues and grammar why me attitude This follows prior work on the subject by Esther Pascual and other authors most of whom are also contributors to this volume The 17 chapters in the volume explore fictive interaction as a fundamental cognitive phenomenon as a ubiquitous discourse structuring device as a possibly universal linguistic construction and as an effective communicative strategy in persuasion and language pathology The data discussed involve a wide variety of unrelated languages spoken and signed and modes of communication oral written visual across cultural contexts and historical time The research presented combines linguistics and cognitive science while bridging the gap between core grammatical studies

and modern conversation and discourse analysis The volume further reaches across what may be the most basic divide in linguistics that between descriptive theoretical and applied linguistics **Relativism and Beyond** Yoav Ariel, Shlomo Biderman, Ornan Rotem, 2023-03-20 A collection of essays in which philosophers of widely different interests grapple with the problem of the relative and the absolute in philosophy and religion A concluding article tries to advance beyond the simple antithesis to a more sophisticated and adequate conception Basic Principles Of Chinese Philosophy (Volumes 1 & 2) Jiaxiang Hu, 2019-01-22 Among world's three major philosophic traditions Chinese philosophy excels in ethical discourse As a collective wisdom on a par with Aristotle's Ethics and Kant's Critique of Practical Reason Chinese philosophy now needs to be systematized and developed Today Chinese philosophy per se has often been reduced to the historical approach to it hence its slower development in comparison with European and Indian philosophies The author of this book avails himself of Kant's model of human psychic structure synthesizes the basic elements of Chinese philosophy into a rigorous theoretical framework and presents a panoptic view of the edifice of traditional Chinese philosophy **New Life for Old Ideas** Yanming An, Brian J. Bruya, 2019-05-15 Munro was more than an intellectual mentor He has been an unfailing source of wisdom inspiration and support Over five decades Donald J Munro has been one of the most important voices in sinological philosophy His rapprochement with contemporary cognitive and evolutionary science helped bolster the insights of Chinese philosophers and set the standard for similar explorations today In this festschrift volume students of Munro and scholars influenced by him celebrate Munro's body of work in essays that extend his legacy exploring their topics as varied as the ethics of Zhuangzi's autotelicity the teleology of nature in Zhu Xi and family love in Confucianism and Christianity **Franz Kafka and Chinese Culture** Yanbing Zeng, 2022-10-20 This book conducts a comprehensive and in depth analysis of Franz Kafka's relation to China Commencing with an examination of the myriad Chinese cultural influences to which Kafka was exposed it goes on to explore the ways in which they manifest themselves in canonical stories such as Description of a Struggle The Great Wall of China and An Old Manuscript This leads the way to thought provoking comparative studies of Kafka and major Chinese writers and philosophers such as Zhuang Tzu Pu Songling Qian Zhongshu and Lu Xun Highlighting kindred philosophical concepts shared aesthetic tastes and parallel narrative strategies these comparisons transcend mere textual analysis to explore the profound cultural historical and philosophical implications of Kafka's works Finally the book turns to an examination of Kafka's impact on modern life in China including its translation studies literature and even its mass culture Those Who Act Ruin It Jacob Bender, 2024-07-01 Drawing on both western and Chinese philosophy Those Who Act Ruin It shows how Daoism presents a viable alternative to established moral theories The Daoist critical of the Confucian and Mohist discourses of their time provides an account of morality that can best be understood as achieving an attunement to situations through the cultivation of habits Furthermore Daoism's meta ethical insights outline how moral philosophy when theorized in a way that ignores our fundamental interdependence devolves into moralistic narcissism Another way of putting

this as the Daodejing states perfectly is that those who act ruin it Sensitive to this problem the Daoist account of moral attunement can ameliorate social woes and not ruin things In their moral attunement Daoists can spontaneously respond to situations in ways that are sensitive to the underlying interdependence of all things *Graphic Novels Beyond the Basics* Martha Cornog, Timothy Perper, 2009-08-25 This study of the graphic novel and its growth in the library helps librarians utilize and develop this extraordinarily popular format in their library collections What does the surge of popularity in graphic novels mean for libraries *Graphic Novels Beyond the Basics* Insights and Issues for Libraries goes deeper into this subject than any other volume previously published bringing together a distinguished panel of experts to examine questions librarians may encounter as they work to enhance their graphic novel holdings *Graphic Novels Beyond the Basics* begins by introducing librarians to the world of the graphic novel popular and critically acclaimed fiction and nonfiction titles a wide range of genres including Japanese manga and other international favorites recurring story and character archetypes and titles created for specific cultural audiences and female readers The book then offers a series of chapters on key issues librarians will face with graphic novels on the shelves including processing and retention questions preservation and retention collecting related media such as Japanese anime films and video games potential grounds for patron or parental complaints the future of graphic novels and more *Vital Nourishment* François Jullien, 2025-09-30 An intellectual history of the concept of life and body politics in Chinese philosophy The philosophical tradition in the West has always subjected life to conceptual divisions and questions about meaning Although this process has given rise to a rich history of inquiry it proceeds too fast contends François Jullien In its anxiety about meaning Western thinkers since Plato have forgotten simply to experience life In *Vital Nourishment* Jullien slows down and begins to think about life from a point outside of Western inquiry using the third and fourth century BCE Chinese thinker Zhuangzi as a foil in this installment of his continuing project of plumbing the philosophical divide between Eastern and Western thought The question of how to feed life or nourish it is the point of departure for the Chinese tradition that Jullien locates in Zhuangzi Life is something that passes through each of us and we have a duty to become amenable to its ebbs and flows We must cultivate a sense of being adequate to it so that we can house it Exploring notions of breath energy and immanence Jullien reopens a vibrant space of intellectual exchange between East and West In doing so he refuses to commit to a rigid thesis of meaning and his text unfolds as an elegant process that begins to mirror the very type of thought he explores While his inquiry is certainly weighted toward reinvigorating Western thought with ideas from the East Jullien points out that this approach is intellectually and politically imperative at present Against the self help industry which pursues an opportunistic simulacrum of this type of intellectual exchange Jullien seeks to create a space of mutual inquiry that maintains the integrity of both Eastern and Western thinking *Vital Nourishment* is therefore both a rich intellectual historical journey and a text very much attuned to the philosophical politics of the present
