Zig Zag And Swirl Alfred W Lawsons Quest For Greatness:

Zig-zag-and-swirl Lyell D. Henry,1991 *Zig-Zag-and-Swirl* Lyell D. Henry,2009-06 Alfred W Lawson 1869 1954 was a professional baseball player inventor of the airliner leader of a movement in the 1930s calling for the abolition of banks and interest and founder of a utopian community the so called Des Moines University of Lawsonomy This unusual institution constantly embroiled in controversy in the 1940s and early 1950s was dedicated not only to teaching Lawson s novel religious and scientific ideas but also to initiating a reform of human nature Throughout this multifaceted and colorful biography Henry gives special attention to Lawson s development as a utopian thinker and reformer providing a thorough treatment of the poignant saga of the controversial and doomed community in Des Moines Every phase of Lawson s incredible career is linked to main currents of American life and culture resulting in an entertaining and sympathetic account that reveals how the self styled Magic Man of Baseball Columbus of the Air Wizard of Reason and First Knowledgian for all his claimed and actual uniqueness was nonetheless a product clearly Made in America The Quest for Utopia in Twentieth-Century America Timothy Miller,1998-05-01 This book is the long anticipated first volume of a two volume work that will chronicle intentional communities in the twentieth century Timothy Miller s chronological account is likely to be the standard work on the subject Communities of the early twentieth century were often obscure and short lived enterprises that left little trace of themselves Historical accounts of them are few and the ephemera such ventures produced have rarely been collected Miller first looks at the older groups that were operating until 1900 He explores their impact of the early twentieth century art colonies and then turns to a decade by decade discussion of many dozens of new groups formed up to 1960 His comprehensive perspective a synopsis of the first sixty years of this century has never before been undertaken in the study of communal groups False Economies S. D. Tucker,2018-05-15 A shocking and hilarious journey through all the madcap economic schemes and theories we ve dreamed up **Princeton Alumni Weekly** Jesse Lynch Williams,Edwin Mark Norris,1990 **Pseudoscience** Lydia Kang,Nate Pedersen,2025-02-18 From the authors of Quackery a visual and narrative history of popular ideas phenomena and widely held beliefs disproven by science From the easily disproved to the wildly speculative to straight up hucksterism Pseudoscience is a romp through much more than bad science it s a light hearted look into why we insist on believing in things such as Big Foot astrology and the existence of aliens Did you know for example that you can tell a person s future by touching their butt Rumpology It s a thing but not really Or that Stanley Kubrick made a fake moon landing film for the US government Except he didn t Or that spontaneous human combustion is real It ain t but it can be explained scientifically Pseudoscience is a wild mix of history pop culture and good old fashioned science that not just entertains but sheds a little light on why we all love to believe in things we know aren t true *America's Alternative Religions* Timothy Miller,1995-07-01 This is a single volume source of reliable information on the most important alternative religions covering for each such essentials as history theology impact on the culture and current status The chapters of the

book were written by experts who study the movements they have written about

The Wright Company Edward J. Roach, 2014-01-06 Fresh from successful flights before royalty in Europe and soon after thrilling hundreds of thousands of people by flying around the Statue of Liberty in the fall of 1909 Wilbur and Orville Wright decided the time was right to begin manufacturing their airplanes for sale Backed by Wall Street tycoons including August Belmont Cornelius Vanderbilt III and Andrew Freedman the brothers formed the Wright Company The Wright Company trained hundreds of early aviators at its flight schools including Roy Brown the Canadian pilot credited with shooting down Manfred von Richtofen the Red Baron during the First World War and Hap Arnold the commander of the U S Army Air Forces during the Second World War Pilots with the company s exhibition department thrilled crowds at events from Winnipeg to Boston Corpus Christi to Colorado Springs Cal Rodgers flew a Wright Company airplane in pursuit of the 50 000 Hearst Aviation Prize in 1911 But all was not well in Dayton a city that hummed with industry producing cash registers railroad cars and many other products The brothers found it hard to transition from running their own bicycle business to being corporate executives responsible for other people s money Their dogged pursuit of enforcement of their 1906 patent especially against Glenn Curtiss and his company helped hold back the development of the U S aviation industry When Orville Wright sold the company in 1915 more than three years after his brother s death he was a comfortable man but his company had built only 120 airplanes at its Dayton factory and Wright Company products were not in the U S arsenal as war continued in Europe Edward Roach provides a fascinating window into the legendary Wright Company its place in Dayton its management struggles and its effects on early U S aviation

Imagining Flight A. Bowdoin Van Riper, 2004 Imagining Flight is a history of the air age as the rest of us have experienced it on the pages of books the screens of movie theaters and the front pages of newspapers It focuses on the United States but also contrasts American ideas and attitudes with those of other air minded nations including Britain France Germany and Japan

Rough Diamonds Hendrik Snyders, 2025-08-22 Starting in the late 19th century South African baseball has established a fascinating and multi layered history Initially established by a small group of dedicated pioneers the sport benefited from the contributions of a diverse and multi national group of enthusiasts and opponents including sailors cricketers missionaries activists businessmen and bureaucrats Established at a time of social and political segregation the South African game eventually developed into a system of legislated racism under apartheid Through its willing participation in official race based events the sport was stripped of its innocence and South Africa was formally expelled from the world game only to be readmitted in 1992 following the country s slow transition to democracy This book presents the history of South African baseball from its inception to its liberation from apartheid Based on extensive archival research this is the first integrated history of South African baseball s eventful past

Was this Heaven? Lyell D. Henry, 1995 Was This Heaven provides detailed depictions of homes and clothing and hairstyles of celebrations and ceremonies of church school and social activities of farm animals and city streets of the multitudinous ways of living full and

satisfying lives Lyell Henry wisely gives priority to people over place shortchanging public buildings in favor of cards that cast a more direct light on early Iowans lives and minds Last spring s flood the Christmas tree in the parlor high school graduation the annual family picnic the whistle stop visit of President Taft and true life encounters with gigantic hogs and outsize ears of corn all combine to form a pleasantly rich visual record of the mental and physical worlds of the many Iowans featured These postcards convey images of people who found great joy in their daily lives With the publication of Was This Heaven Iowans at the end of the twentieth century can look back across the decades and recapture that same joy in these fresh and effervescent images *Forgotten Science* S. D. Tucker,2016-04-15 Was Jesus a giant electron How much does a mouse s soul weigh Can women mate with monkeys As mad as these questions may seem they have been asked by science in years gone by *Forgotten Science* unearths some of the most extraordinary attempts to understand the world around us

The People Are Kind Bill R. Douglas,2024-12-30 What religion the newly opened recently indigenous territory of Iowa would become was a matter of concern to German Lutherans Austrian and French Catholics and New England Congregationalists But their funding proved no match for the myriad of choices Iowans had Methodists were everywhere and Inspirationists Freethinkers and Meskwakis all added to the chorus suggesting that hegemony was not a possibility and cooperation a better strategy Religious Iowans Black Hawk Amelia Bloomer Annie Wittenmeyer James B Weaver Billy Sunday John R Mott Luigi Ligutti Henry A Wallace Ann Landers Harold Hughes and Robert Ray all make appearances How did Sioux City pastor George Haddock get his name on streets in California How did Rev George Slater contribute to civil rights Which state was the go to for journalists looking for an American religious consensus How did Dubuque seminary professors feel about nuclear weapons How did Sr Pat Farrell parry Vatican accusations of heresy The answers to those and many other questions the reader never thought to ask lie within With humor incisive analysis and sympathy Douglas paints a tapestry that contributes not just to religious history but argues for its importance to the history of Iowa **The Baseball Trust**

Stuart Banner,2013-03-14 The Baseball Trust is about the origins and persistence of baseball s strange exemption from antitrust law Told through a frequently riveting and always entertaining history of America s pastime author Stuart Banner emphasizes the strategies baseball has used to achieve a protected legal status enjoyed by no other industry in America

Money, Power, and the People Christopher W. Shaw,2022-12-22 An engaging and well researched study of ordinary people who joined together to challenge financial institutions Choice Banks and bankers are hardly the most beloved institutions and people in this country With its corruptive influence on politics and stranglehold on the American economy Wall Street is held in high regard by few outside the financial sector But the pitchforks raised against this behemoth are largely rhetorical We rarely see riots in the streets or public demands for an equitable and democratic banking system that result in serious national changes Yet the situation was vastly different a century ago as Christopher W Shaw shows This book upends the conventional thinking that financial policy in the early twentieth century was set primarily by the needs and

demands of bankers Shaw shows that banking and politics were directly shaped by the literal and symbolic investments of the grassroots This engagement remade financial institutions and the national economy through populist pressure and the establishment of federal regulatory programs and agencies like the Farm Credit System and the Federal Deposit Insurance Corporation Shaw reveals the surprising groundswell behind seemingly arcane legislation as well as the power of the people to demand serious political repercussions for the banks that caused the Great Depression One result of this sustained interest and pressure was legislation and regulation that brought on a long period of relative financial stability with a reduced frequency of economic booms and busts Ironically this stability led to the decline of the very banking politics that brought it about Giving voice to a broad swath of American figures including workers farmers politicians and bankers alike Money Power and the People recasts our understanding of what might be possible in balancing the needs of the people with those of their financial institutions **Annals of Iowa** ,2001 *The Eccentropedia* Chris Mikul,2012-10-02 An A Z of eccentrics 250 true stories of the most original and outrageous people on earth from bad poets to transsexual evolutionary theorists this encyclopedic guide covering ancient times to the present includes reams of material never seen in book form before Famous eccentrics like King Ludwig Salvador Dal and Howard Hughes rub shoulders with a host of lesser known but equally colorful characters in these mostly life affirming stories There are unsuspected parallels and connections throughout creating an alternative off kilter history of the world **American Bookseller** ,1990 **Choice** ,1991 **Surrounded by Reality** Doug Moe,2005 80 columns written by Doug Moe for the Capital times in Madison Wisconsin
