Christopher W. Berg, Theodore M. Christou, 2020-04-03 This Handbook presents an international collection of essays examining history education past and present Framing recent curriculum reforms in Canada and in the United States in light of a century long debate between the relationship between theory and practice this collection contextualizes the debate by exploring the evolution of history and social studies education within their state or national contexts With contributions ranging from Canada Finland New Zealand Sweden the Netherlands the Republic of South Africa the United Kingdom and the United States chapters illuminate the ways in which curriculum theorists and academic researchers are working with curriculum developers and educators to translate and refine notions of historical thinking or inquiry as well as pedagogical practice

Moto ,2001 *Education and Development in Zimbabwe* Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology

policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country's education Handel Kashope Wright Professor of Education University of British Columbia

Mastering African History for Ordinary Level Stanley R. Katare, 2006 [If You Want to Learn Early African History START HERE](#) Robin Walker, 2014-12-09 Many people have told me of their interest in early Black or African history and heritage These people were from all walks of life students teachers plumbers civil servants electricians entrepreneurs etcetera Many were also parents who wanted to pass on information to their children What they had in common was that they were unsure of where to begin their reading and study but they still wanted to find out more information This book was written to simplify that journey As the author of *When We Ruled* a 700 plus page book on African history I could also see the need to produce a smaller book that condenses and simplifies the information I want to make the data as accessible as possible hence this book This book is in two parts The first part is called *If you want to learn Early African History START HERE* The second part is called *50 Questions and Answers on the History of Black People* The first part of the book *If you want to learn Early African History START HERE* is a general introduction to Classical African history covering the most important ancient and medieval empires It began life as two separate lectures that I gave to introduce African history One of the lectures was called *When We Ruled Thousands of Years of a Visible African Heritage* The second lecture was called *The Lost Civilisations of Central Africa* To write this section of the book I combined these two lectures into one narrative In the final part of this section I suggest other sources that a student could read to advance their knowledge even more The second part of the book *50 Questions and Answers on the History of Black People* began life when a colleague approached me to give him an extended interview on Black or African history The colleague posed 50 varied questions to me to which I gave extended answers He asked me about Nile Valley history Ancient Kingdoms and Empires The Slave Trade earlier Black historians and their writings etcetera I hope that the 50 questions answer most of the questions that people raise concerning Black or African history Robin Walker *Principles of African History* Daniel W.
