The World Of The Favourite:

The World of the Favourite J. H. Elliott, L. W. B. Brockliss, 1998-08 Observers in England Spain France and many other European states in the sixteenth and seventeenth centuries grew increasingly alarmed by the growing influence of favourites or minister favourites These individuals appeared to be usurping powers and duties normally exercised by monarchs In this pioneering book a team of international scholars considers the emergence of favourites in Europe The contributors examine the relation of the rise of the European favourite to various aspects of power politics and court culture They also investigate how the careers of individual favourites cast light on broader historic and power issues Probing beyond the well known life stories of such individual favourites and minister favourites as the Duke of Buckingham Cardinal Richelieu and the Count Duke of Olivares the contributors inquire into the phenomenon of these powerful figures Was their appearance on the European scene a matter of chance How is it to be explained How did favourites win and retain their hold on power What was their relationship to their royal masters How did they view themselves and how did their contemporaries see them And why did monarchs increasingly choose to rule without favourites as the seventeenth century drew to a close This book provides many new insights into the intriguing role of the favourite in Early Modern Europe *The Anglo-Dutch Favourite* David Onnekink, 2016-03-16 Hans Willem Bentinck 1st Earl of Portland 1649 1709 was the closest confidant of William III and arguably the most important politician in Williamite Britain Beginning his career in 1664 as page to William of Orange his fortunes gained momentum with the Prince's rise to power in The Netherlands and Britain emerging as William's favourite at court from the 1670s onwards Taking a broadly chronological approach the central concern of this book is not simply to provide a biographical account of Portland's life but to explore wider political themes within a European context By analysing Portland's role within William's government it shows how royal favourites could still wield considerable influence on European events and help shape royal policy particularly with regard to foreign policy By engaging with the question of why such a figure emerged this study helps illuminate the workings of William's government and the central role of his foreign entourage Drawing from archival material in England Scotland France and The Netherlands it ties the history of post Revolution Britain with political events in the Netherlands It also analyses Anglo Dutch political relations during the crucial period of the Nine Years War Britain's first major commitment to a continental war since the sixteenth century In so doing it connects Dutch and British historiography and significantly contributes to our understanding of British politics during the 1690s both domestically and within an international context *Indian Antiquary*, 1878 *The World's Great Confessions*, 1929 The confessions of Jean Jacques Rousseau The autobiography of Benvenuto Cellini The confessions of an English opium eater by Thomas De Quincey The memoirs of Madame de Pompadour The autobiography of Benjamin Franklin The confessions of St Augustine *The World's Work*, 1913 *The World's History: Oceania, Eastern Asia, and the Indian ocean* Hans Ferdinand Helmolt, 1904 **The Spectator**, 1879 A weekly review of politics literature theology and art *The*
