Theories Of Race And Racism A Reader Routledge Student Readers:

Theories of Race and Racism Les Back, John Solomos, 2000 20 Lola Young **IMPERIAL CULTURE Cultural Studies**
Simon During, 2005 An ideal introduction explaining the history and key concerns of cultural studies **The Oxford**
Handbook of the Prophets Carolyn Sharp, 2016-09-01 The Latter Prophets Isaiah Jeremiah Ezekiel and the Book of the
Twelve comprise a fascinating collection of prophetic oracles narratives and vision reports from ancient Israel and Judah
Spanning centuries and showing evidence of compositional growth and editorial elaboration over time these prophetic books
offer an unparalleled view into the cultural norms theological convictions and political disputes of Israelite communities
caught in the maelstrom of militarized conflicts with the empires of ancient Egypt Babylonia and Persia Instructive for
scholar and student alike The Oxford Handbook of the Prophets features wide ranging discussion of ancient Near Eastern
social and cultic contexts exploration of focused topics such as the persona of the prophet and the problem of violence in
prophetic rhetoric sophisticated historical and literary analysis of key prophetic texts issues in reception history from these
texts earliest reinterpretations at Qumran to Christian appropriations in contemporary homiletics feminist materialist and
postcolonial readings engaging the insights of influential contemporary theorists and more The diversity of interpretive
approaches clarity of presentation and breadth of expertise represented here will make this Handbook indispensable for
research and teaching on the Latter Prophets **Ethnicity and Inclusion** David G. Horrell, 2020-10-29 Some of today's
problematic ideologies of racial and religious difference can be traced back to constructions of the relationship between
Judaism and early Christianity New Testament studies which developed contemporaneously with Europe's colonial expansion
and racial ideologies is David Horrell argues therefore an important site at which to probe critically these ideological
constructions and their contemporary implications In Ethnicity and Inclusion Horrell explores the ways in which ethnic and
religious characteristics feature in key Jewish and early Christian texts challenging the widely accepted dichotomy between a
Judaism that is ethnically defined and a Christianity that is open and inclusive Then through an engagement with whiteness
studies he offers a critique of the implicit whiteness and Christianness that continue to dominate New Testament studies
today arguing that a diversity of embodied perspectives is epistemologically necessary **The Information Society**
Reader Frank Webster, Raimo Blom, 2004 Pulling together contributions to the information society debate from some of the
field's key figures this book addresses and examines key topics providing an invaluable resource for students and academics
alike **Social Research Methods** Clive Seale, 2004 Bringing together many of the core classic and contemporary works in
social and cultural research methods this book gives students direct access to methodological debates and examples of
practical research across the qualitative quantitative divide The book is designed to be used both as a collection of readings
and as an introductory research methods book in its own right Topics covered include research methodology research design
data collection and preparation analyzing data mixing qualitative and quantitative methods validity and reliability

Religion and American Cultures Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the nones those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

Contesting Islam, Constructing Race and Sexuality Sunera Thobani, 2020-12-10 The current political standoffs of the War on Terror illustrate that the interaction within and between the so called Western and Middle Eastern civilizations is constantly in flux A recurring theme however is how Islam and Muslims signify the Enemy in the Western socio cultural imagination and have become the Other against which the West identifies itself In a unique and insightful blend of critical race feminist and post colonial theory Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history including the Crusades the Reconquista and the colonial period More specifically she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against radical Islam Exposing these symbiotic relationships Thobani explores how the return of religion is reworking the racial gender and sexual politics by which Western society defines itself and more specifically defines itself against Islam Contesting Islam Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the West and the crucial role that Islam has had and continues to have in its development

 demonstrates mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this
 unhealthy white framing of knowledge and evasion or downplaying of institutional structural and systemic racism In response
 to ineffective social science analyses of racial matters this book presents a counter approach systemic racism theory The
 foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people
 of color who have long challenged biased white framed perspectives and practices and the racially oppressive and
 exclusionary institutions and social systems created by whites over several centuries **Sociology** ,1982 **The Library**
