Theory And Practice Of Excise Taxation Smoking Drinking Gambling Polluting And Driving:

Theory and Practice of Excise Taxation Sijbren Cnossen, 2005-02-03 Excise taxes on smoking drinking gambling polluting and driving are always topical and controversial Not only are these taxes convenient sources of government revenue they can also be designed to reflect the external costs that consumers or producers of excisable products impose on other people Global warming acid rain traffic congestion and the economic costs of cigarette and alcohol consumption are problems that can be corrected through selective excise taxes and other regulatory instruments Excise taxes moreover are increasingly looked upon as revenue substitutes for distortionary taxes on capital and labour Addressing these and other issues this book by internationally recognized experts analyses the art of excise taxation providing a systematic insightful and often provocative treatment of a major fiscal instrument that policy makers often neglect and that gets little attention in the professional literature It provides a sound understanding not only of relevant economic theory but of the myriad institutional details that are crucial for the practical application of that theory

The Marginal Cost of Public Funds Bevdahlby, 2008-04-25 A unified treatment of the marginal cost of public funds covering both its theoretical foundations and how the MCF concept can be used to analyze tax policy issues The marginal cost of public funds MCF measures the loss incurred by society in raising additional revenues to finance government spending The MCF has emerged as one of the most important concepts in public economics it is a key component in evaluations of tax reforms public expenditure programs and other public policies The Marginal Cost of Public Funds provides a unified treatment of the MCF carefully developing its theoretical foundations in a variety of contexts and describing its application to a wide range of policies from excise taxes in Thailand to public sector borrowing in Canada and the United States The Marginal Cost of Public Funds develops the basic theory of the MCF within the framework of public economics and shows how it is related to the traditional measures of the efficiency loss from distortionary taxation The MCF concept is then applied to the major sources of revenues for governments sales and excise taxes taxes on labor income taxes on the return to capital public sector borrowing and intergovernmental grants This book will be an essential reference for economists and public policy analysts both in and out of government Exercises and recommendations for further reading at the end of each main chapter highlight its usefulness as a supplementary text in advanced undergraduate or graduate courses in public economics

Tax by Design for the Netherlands Sijbren Cnossen, Bas Jacobs, 2022 This book provides evidence based analyses of the Dutch tax system s shortcomings as well as detailed proposals for reform

Alcohol: No Ordinary Commodity Thomas F. Babor, Sally Casswell, Kathryn Graham, Taisia Huckle, Michael Livingston, Esa Österberg, Jürgen Rehm, Robin Room, Ingeborg Rossow, Bundit Sornpaisarn, 2022-10-31 Alcohol No Ordinary Commodity is a collaborative effort by an international group of addiction scientists to improve the linkages between addiction science and alcohol policy It presents in a comprehensive practical and readily accessible form the accumulated scientific knowledge on alcohol research that has a direct relevance to the development of alcohol policy on

local national and international levels It provides an objective basis on which to build relevant policies globally and informs policy makers who have direct responsibility for public health and social welfare By locating alcohol policy primarily within the realm of public health this book draws attention to the growing tendency for governments both national and local to consider alcohol misuse as a major determinant of ill health and to organize societal responses accordingly The scope of the book is comprehensive and global The authors describe the conceptual basis for a rational alcohol policy and present new epidemiological data on the global dimensions of alcohol misuse The core of the book is a critical review of the cumulative scientific evidence in seven general areas of alcohol policy pricing and taxation regulating the physical availability of alcohol modifying the environment in which drinking occurs drinking driving countermeasures marketing restrictions primary prevention programs in schools and other settings and treatment and early intervention services The final chapters discuss the current state of alcohol policy in different parts of the world and describe the need for a new approach to alcohol policy that is evidence based global and coordinated A valuable resource for those involved in addiction science and drug policy as well as those in the wider fields of public health health policy epidemiology and practising clinicians *Tax Notes*

International, 2005 Modernizing VATs in Africa Sijbren Cnossen, 2019-07-12 Most African countries are in dire need of more tax revenue In 28 out of 45 countries with a value added tax VAT total tax revenue as a percentage of GDP is around 15% or less falling short of what is necessary to finance basic human and economic development Far from being revenue raising instruments current African VATs are riddled with exemptions exclusions and zero rates on domestic goods and services that depress revenue are highly distortionary and greatly complicate the administration of VAT Modernizing VATs in Africa enables policymakers professionals and students to analyse African tax systems to ascertain how they can be modernized It explains the case for VAT base broadening over rate increasing arguing that exemptions and zero rates mainly accrue benefits for higher income groups Even more persuasively it demonstrates that the net result of fiscal systems can be equalizing if the revenue of broad based VATs is used to finance in kind transfers such as healthcare and education VAT modernization should be used to enable governments to finance development Modernizing VATs in Africa puts a compelling case forward for how and why this can be achieved **Alcohol Taxation and Regulation in the European Union** Sijbren Cnossen, 2006
