Lesson Plans Judson G. Everitt, 2017-12-21 In Lesson Plans Judson G Everitt takes readers into the everyday worlds of teacher training and reveals the complexities and dilemmas teacher candidates confront as they learn how to perform a job that many people assume anybody can do Using rich qualitative data Everitt analyzes how people make sense of their prospective jobs as teachers and how their introduction to this profession is shaped by the institutionalized rules and practices of higher education K 12 education and gender Trained to constantly adapt to various contingencies that routinely arise in schools and classrooms teacher candidates learn that they must continually try to reconcile the competing expectations of their jobs to meet students needs in an era of accountability Lesson Plans reveals how institutions shape the ways we produce teachers and how new teachers make sense of the multiple and complicated demands they face in their efforts to educate students

Number Sense Routines Jessica Shumway, 2023-10-10 Following up her best selling book *Number Sense Routines Building Numerical Literacy Every Day in Grades K 3* Jessica Shumway turns her focus to upper elementary classrooms *Number Sense Routines Developing Mathematical Understanding Every Day in Grades 3 5* is about tapping into every child s innate number sense and providing daily connected experiences that are responsive to children s learning needs *Consistent Daily Routines Work Adaptable to any curriculum* Shumway s 5 10 or 15 minute warm up routines are an easy and effective way to build and solidify students number sense foundations as a supplement to any program *Planning and Facilitating Your Classroom* No matter how familiar the routine Shumway provides insight on how to keep daily warm ups fresh She reveals careful thinking and planning that goes into each routine and offers detailed vignettes and dialogues of how they unfold in real classrooms *Assessment Strategies* As students engage in the process each routine becomes an exciting opportunity to gain insight into where they are in their understanding and help students articulate their mathematical thinking *Identify Big Ideas* Not only will these math routines help develop students mathematical understanding as they move towards using standard algorithms but teachers will learn to better recognize the big ideas that emerge in discussions how to encourage important strategies based in number sense and how to facilitate conversations on key mathematical concepts These routines may appear in other places but I have never seen them written in such detail and with so many variations Although she makes what she does sound easy we all know that teaching math well is anything but easy It is challenging and complex *Unpacking what students are saying* helping them make connections not only to the math but to each other s ideas while simultaneously recording their ideas using mathematical models visuals or equations is no easy task Jessica provides wonderful visuals examples of student work and so much more to help educators develop the tools they need to improve their practice and in so doing improve student learning From the Foreword by math coach and consultant Lucy West
