

Unit 3 Assignment 2

I was asked to create digital content for a business to meet the need of the business and to meet the client's requirements and needs. The aim is to allow a business to promote their businesses to spread brand awareness and increase sales and have more customers and increase traffic to the business to increase sales profits.

The business aims to reach out to potential students to register and sign up on the platform and start learning. So, the platform needs to create social media on multiple different social media platforms such as Instagram and Facebook and design visual designs such as posters to increase the chances of more people signing up and joining the platform. The platform allows students to learn while they are at home with qualified and experienced teachers from all around the world to share their knowledge and experience with their students.

Social media plan to meet the business requirements

The goal of the business is: to make education more accessible by providing online courses and teachers remotely from home and to create opportunities that might be not available in their local area. Also, to enhance the learning outcomes by providing personalized learning experiences that meet the need of individual learners which will result in better learning outcomes. Also, one of the great features of this platform is that it provides flexibility: the platform can offer learners the flexibility to learn at their own pace and in their own schedule, not like schools and colleges where they are a timetable that students must follow, which allow learners to balance their education with work, family, and other responsibilities that they have.

Target audience: educational platforms target potential students who want to learn about a certain subject or improve their skills in a particular topic and get better grades at school or college. They can target college students and adult learners. Because this platform offers language courses that might be suitable for adult students who want to learn an additional second language. And for college students, because it offers topics such as science and chemistry. And it can also attract home-school students as it provides home-schooling resources and support student who chose to study at home by providing online teachers to look after their studies and help them throughout their learning journey.
