Annotated Reading List of United States Marine Corps History Harold A. Bivins,1971 **World War II in Europe, Africa, and the Americas, with General Sources** Loyd Lee,1997-08-21 A broadly interdisciplinary work this handbook discusses the best and most enduring literature related to the major topics and themes of World War II Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence while political and diplomatic history is covered in chapters on international relations resistance movements and collaboration The volume analyzes themes of domestic history in essays on economic mobilization the home fronts and

women in the military and civilian life The book also covers the Holocaust This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities Except for nonprint material the literature research and sources surveyed are primarily those available in English The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war The United States Military in Latin America George B. Clark, 2014-08-08 Since the introduction of the Monroe Doctrine in 1823 in which the United States vowed to prevent further European interference in the Western Hemisphere the American military ever increasingly involved itself in the internal affairs of its Latin American neighbors This book considers nearly 150 years of U S military intervention in Latin America from naval patrols near turbulent Spanish colonies in the early 1800s to the protection of U S interests during Caribbean rebellions at the beginning of the 1900s to later actions in Panama Honduras Cuba and Nicaragua With short chronicles of U S involvement country by country from Argentina to Uruguay and appendices providing biographies of major military commanders and lists of servicemen decorated injured or killed during various campaigns this work highlights the complicated history between the United States and its neighbors to the South Commanding the Pacific Stephen Taaffe, 2021-09-15 The Marine Corps covered itself in glory in World War II with victories over the Japanese in hard fought battles such as Guadalcanal Tarawa and Iwo Jima While these battles are well known those who led the Marines into them have remained obscure until now In Commanding the Pacific Marine Corps Generals in World War II Stephen R Taaffe analyzes the fifteen high level Marine generals who led the Corps six combat divisions and two corps in the conflict He concludes that these leaders played an indispensable and unheralded role in organizing training and leading their men to victory Taaffe insists there was nothing inevitable about the Marine Corps success in World War II The small pre war size of the Corps meant that its commandant had to draw his combat leaders from a small pool of officers who often lacked the education of their Army and Navy counterparts Indeed there were fewer than one hundred Marine officers with the necessary rank background character and skills for its high level combat assignments Moreover the Army and Navy froze the Marines out of high level strategic decisions and frequently impinged on Marine prerogatives There were no Marines in the Joint Chiefs of Staff or at the head of the Pacific War's geographic theaters so the Marines usually had little influence over the island targets selected for them In addition to bureaucratic obstacles constricted geography and vicious Japanese opposition limited opportunities for Marine generals to earn the kind of renown that Army and Navy commanders achieved elsewhere In most of its battles on small Pacific War islands Marine generals had neither the option nor inclination to engage in sophisticated tactics but they instead relied in direct frontal assaults that resulted in heavy casualties Such losses against targets of often questionable strategic value sometimes called into question the Marine Corps doctrine mission and the quality of its combat generals Despite these difficulties Marine combat commanders repeatedly overcame challenges and fulfilled their missions Their ability to do so does credit to the Corps and demonstrates that these generals deserve more

attention from historians than they have so far received *The American Expeditionary Force in World War I* George B. Clark, 2013-02-23 In April 1917 the United States ended its nonintervention policy and entered World War I as an Associated Power to aid the Allies in their fight against the Central Powers The American Expeditionary Force fighting alongside French and British troops provided vital manpower on the Western Front during the Aisne Offensive and participated in major actions in the Saint Mihiel and Meuse Argonne offensives that turned the tide late in the war This volume offers the first comprehensive statistical history of the American Expeditionary Force supplying fascinating details often omitted from narrative battle summaries After an overview of each of the actions and battles in which the AEF participated the book chronicles the day to day activities of every division This work presents the most thorough examination yet available of the American fighting forces in the Great War *The Second Infantry Division in World War I* George B. Clark, 2007-08-17 When the United States entered World War I in 1917 it sent the American Expeditionary Force to relieve the worn and beleaguered Allied Forces On September 20 1917 Congress approved the creation of the Second Division of the American Expeditionary Force A hybrid Marine Army unit it was conceived and ultimately formed overseas primarily from units in France Giving themselves the nickname Second to None the Second Division effectively stopped the German drive on Paris in June 1918 becoming the first American unit to fight the enemy in a major engagement and revitalizing the Allied war effort This volume details the fighting experiences of the Second Division from its creation in the fall of 1917 through 1919 The book follows the unit from training in Toulon through the major campaigns including Chateau Thierry Soissons Blanc Mont and Meuse Argonne and records the experiences of the men who served Appendices provide information regarding the pedigree of the division and its units a syllabi of the Second Division s experiences and a list of major awards received by Second Division personnel Detailed maps and period photographs are also included **Biplanes at War** Wray R. Johnson, 2019-04-16 Unlike the relative uniformity of conventional warfare the peculiarities of small wars prevent a clear definition of rules and roles for military forces to follow During the small wars era aviation was still in its infancy and the US military had only recently begun battling in the skies The US Marine Corps recognized that flexibility and ingenuity would be critical to the successful conduct of small wars and thus employed the new technology of aviation In *Biplanes at War* US Marine Corps Aviation in the Small Wars Era 1915 1934 author Wray R Johnson provides a riveting history of the marines use of aviation between the world wars a time in which young soldiers were volunteering to fly in combat when flying itself was a dangerous feat Starting with Haiti in 1915 *Biplanes at War* follows the marines aviation experiences in Haiti the Dominican Republic China and Nicaragua chronicling how marines used aircraft to provide supporting fires e g dive bombing to ground troops in close contact with irregular opponents evacuate the sick and wounded transport people and cargo e g to assist humanitarian operations and even support elections in furtherance of democracy After years of expanding the capabilities of airplanes far beyond what was deemed possible the small wars era ended and the US Marines Corps transitioned into an amphibious

assault force The legacy of the marines ability to adapt and innovate during the small wars era endures and provides a useful case study Biplanes at War sheds light on how the marines pioneered roles and missions that have become commonplace for air forces today an accomplishment that has largely gone unrecognized in mainstream histories of aviation and air power
