United Nations Documents Index April June 2006:

United Nations Documents Index Dag Hammarskjöld Library, 2007 **United Nations Documents Index April June 2006** United Nations, 2007-09-21 The United Nations Documents Index provides information on documents and publications issued by United Nations offices worldwide The information is presented in nine sections covering the areas of documents and publications official records sales publications United Nations maps included in UN documents United Nations sheet maps United Nations document series symbols author index title index and subject index The Index is a two volume set **The United Nations Special Procedures System** Aoife Nolan, Rosa Freedman, Thérèse Murphy, 2017-01-09 The United Nations Special Procedures system is a key element of the evolving international framework for human rights protection and promotion However despite the system's expansion the range of roles and functions performed by mandate holders and the mounting evidence of its strengths and limitations there has been very little academic interrogation or analysis of Special Procedures This lacuna is ever more problematic given the growing profile and effectiveness of the Special Procedures work as well as the increasing attention and challenges that they face both externally from States and internally from within the UN system Given the current state of play of Special Procedures it is essential that scholarly attention be focussed upon the system How does it contribute to international human rights protection How when and why does it fail to do so What steps can and should be taken to address shortcomings both within the system and in terms of the legal and political context within which it operates Featuring expert contributions from key players within and expert commentators on the Special Procedures system this volume addresses these questions in an in depth and rigorous scholarly manner In Defense of Politicization of Human Rights Elvira Domínguez-Redondo, 2020-06-01 This book constitutes the first comprehensive study of the United Nations Special Procedures covering their history methods of work institutional status relationship with other politically driven organs and processes affecting their development Using concrete examples the book shows how cooperation between states rather than legalistic processes have had beneficial impacts on the protection and promotion of human rights **Policy-Making in the GCC** Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such

change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike **Small Arms Survey 2007** Small Arms Survey, Graduate Institute of International Studies (Geneva, Switzerland), 2007-09-06 The Small Arms Survey 2007 features a special focus on the complex issue of urban violence **Justice and Governance in East Timor** Rod Nixon, 2013-06-17 Focusing on the case study of Timor Leste this book presents the New Subsistence State as a conceptual tool for understanding governance challenges in countries characterised by subsistence economic and social relations It examines the ways in which Timor Leste conforms to the typology of the New Subsistence State taking into consideration geographic historical and socio political aspects The book defines a New Subsistence State as an overwhelmingly subsistence economy corresponding to little or no historical experience of the generation and administration of large surpluses with minimal labour specialisation and the predominance especially in rural areas of traditional authority relations It looks at how these features restrict the capacity of the new state to operate effectively in accordance with the modern state model The book presents a case for prioritising sustainable approaches to public administration in New Subsistence State contexts It goes on to examine the historical role of village justice systems and demonstrates how a community justice and mediation program building on existing capacities could prove an economical means of promoting human rights values and reducing the burden on the national courts The book presents an interesting contribution to studies on Southeast Asian Politics and Governance **United Nations Documents Index**, 1965 Sport and Foreign Policy in a Globalizing World Steven J. Jackson, Steven Haigh, 2013-10-18 Globalization is effecting a close convergence of sport and foreign policy In order to respond to novel social political cultural and economic pressures states are increasingly turning to sport as a foreign policy instrument and they cannot ignore the corresponding influence that global sport has on their core interests This book is devoted to exploring this relationship in detail Although any examination of sport and foreign policy inevitably focuses on issues related to both politics and international relations the primary intention here is to consider the dimensions associated with foreign policy This book was previously published as a special issue of Sport in Society **Index to Jewish Periodicals**, 2005 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests **Index to Proceedings of the General Assembly**, 2005 Includes special sessions *State of the World's Children* UNICEF., 2009 On 20 November 2009 the global community celebrates the 20th anniversary of the adoption by the United Nations General Assembly of the Convention on the Rights of the Child the unique document that sets international standards for the care treatment and protection of all individuals below age 18 To celebrate this landmark the United Nations Children's Fund is dedicating a special edition of its flagship report The State of the World's Children to examining

the Convention's evolution progress achieved on child rights challenges remaining and actions to be taken to ensure that its promise becomes a reality for all children **United Nations Documents Index** United Nations. Dag Hammarskjöld Library, 1951 **UNFPA State of World Population, 2006** United Nations Population Fund, 2006 This year's report focuses on the lives of migrant women who constitute almost half of all international migrants worldwide some 95 million Every year these women working overseas send hundreds of millions of dollars in remittances back to their homes and communities These funds go to feed and educate children provide health care build homes foster small businesses and generally improve living standards for loved ones left behind For host countries the labour of migrant women is so embedded in the fabric of society that it goes virtually unnoticed But migration whilst offering opportunities for economic advancement and relief from oppression and discrimination has its darker side enslavement of trafficking victims and the exploitation of domestic workers [Index to Proceedings of the Security Council](#) , 2005 **United Nations Handbook** , 2007

Sanctions and Embargoes in Africa Andrews Atta-Asamoah, 2009 **Review of International Affairs** , 2005

Library of Congress Catalogs Library of Congress, 1960 **Global Obligations for the Right to Food** George Kent, 2008-01-17 A child may be born into a poor country but not a poor world If global human rights are to be meaningful they must be universal Global Obligations for the Right to Food assesses the nature and depth of the global responsibility to provide adequate food to the world's population While governments have a primary responsibility for assuring the right to food for people under national jurisdictions we as a global community are all responsible Global Obligations for the Right to Food explores the various actions that should be taken by governments non governmental organizations and individuals to ensure that citizens of the world have access to adequate food
