**THE ORGANIZATION AND ORDER OF BATTLE OF MILITARIES IN WORLD WAR II** Charles D. Pettibone,2014-04 There are numerous Order of Battle books on the market So what makes this one so special Why should one decide on this particular book Most Order of Battle books usually deal only with the division and corps level of a country s army Most higher commands are not covered This book deals with all the branches of a country s military giving a breakdown of all the major echelons of command from theater down to brigade under each component army group armies corps division and brigade and the equivalent command structure for the other military branches are included Second it attempts to give an overall command structure of the country s military showing the central headquarters command structure as well as the major components army groups armies corps etc Third most Order of Battle books list the commanders and their dates of tenure This book includes those but also lists their next duty assignments or where they went after leaving the post One can literally trace a general officer s career through the upper echelons of command making this completely different from all the other Order of Battle books on the market      **War, Entrepreneurs, and the State in Europe and the Mediterranean, 1300-1800** ,2014-05-01 In War Entrepreneurs and the State Jeff Fynn Paul Leiden assembles an internationally acclaimed

selection of authors to push forward the debate on the role of entrepreneurs in making war and building states in Europe and the Ottoman Empire Topics covered include logistics supply recruitment and the finance of war Chapters have been carefully commissioned with an eye towards complementarity In an introduction co written with Marjolein t Hart and Griet Vermeesch Fynn Paul challenges existing discourses of military entrepreneurialism A new benchmark is proposed did states choose to work with entrepreneurs or to restrict their activities and subvert the market From the introduction and the individual chapters a new more expansive vision of the military entrepreneur emerges Contributors are Carlos lvarez Nogal Pepijn Brandon William Caferro Stephen Conway Thomas Goossens Aaron Graham Rhoads Murphey David Parrott Helen Paul Guy Rowlands Kahraman akul Marjolein t Hart Andrea Thiele and Rafael Torres S nchez *Small Powers in the Age of Total War, 1900-1940* Herman Amersfoort, Wim Klinkert, 2011-04-11 In the period 1900 1940 the Netherlands Belgium Denmark Norway and Switzerland reacted in divergent ways to the same foreign military threats This volume argues that their internal politics and politico military strategic culture are vital keys to understanding those differences *A Throne in Brussels* Paul Belien, 2014-03-10 Offers a history of the monarchy of Belgium a country artificially created in 1817 This book argues that the pan European super state resembles a Greater Belgium rather than a Greater Switzerland *The Salient* Alan Palmer, 2013-08-15 Ypres today is an international Town of Peace but in 1914 the town and the Salient the 35 mile bulge in the Western Front of which it is part saw a 1500 day military campaign of mud and blood at the heart of the First World War that turned it into the devil s nursery Distinguished biographer and historian of modern Europe Alan Palmer tells the story of the war in Flanders as a conflict that has left a deep social and political mark on the history of Europe Denying Germany possession of the historic town of Ypres and access to the Channel coast was crucial to Britain s victory in 1918 But though Flanders battlefields are the closest on the continent to English shores this was always much more than a narrowly British conflict Passchendaele the Menin Road Hill 60 and the Messines Ridge remain names etched in folk memory Militarily and tactically the four year long campaign was innovative and a grim testing ground with constantly changing ideas of strategy and disputes between politicians and generals Alan Palmer details all its aspects in an illuminating history of the place as much as the fighting man s experience *Belgium's Dilemma* Jonathan A. Epstein, 2014-03-27 In Belgium s Dilemma The Formation of Belgian Defense Policy 1932 1940 Jonathan Andrew Epstein presents for the first time in English a detailed examination of the formation of Belgian defense policy in the eight years leading up to the crucial World War II Blitzkrieg campaign in Western Europe Belgium s decision to renounce military ties with France in 1936 has been widely criticized as a fatal mistake but it was in fact a reasonable response to Belgium s situation and was not a significant factor in the Allied defeat Drawing on Belgian documents Jonathan Andrew Epstein looks at the leaders and issues that shaped the Belgian army of 1940 and demonstrates that while mistakes were made most of the decisions were sound **Prisoners of War** Bob Moore, 2022-04-14 The Second World War between the European Axis powers and the Allies saw more than twenty million

soldiers taken as prisoners of war While this total is inflated by the unconditional surrender of all German forces in Europe on 8 May 1945 it nonetheless highlights the fact that captivity was one of the most common experiences for all those in uniform even more common than frontline service Despite this and the huge literature on so many aspects of the war prisoner of war histories have remained a separate and sometimes isolated element in the wider national chronicles of the conflict constructed in the post war era Prisoners of every nationality had their own narratives of military service and captivity While it is impossible to encompass their collective histories let alone the individual experiences of all twenty million prisoners in a single volume Bob Moore uses a series of case studies to highlight the key elements involved and to introduce analyse and refine some of the major debates that have arisen in the existing historiography The study is divided into three broad sections captivity in Eastern and Western Europe during the war itself comparative studies of specific categories of prisoners and the repatriation and reintegration of prisoners after the war

**The Conspiracy Against Hitler in the Twilight War** Harold C. Deutsch, 1968-05-20 The Conspiracy Against Hitler in the Twilight War was first published in 1968 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This is the first detailed account in English of the German anti Nazi plot of September 1939 May 1940 a conspiracy which involved the services of Pope Pius XII as intermediary Much new information is presented and the book puts the whole story of the German resistance movement in a clearer light than has been possible before Much of the account is based on the testimony of over fifty witnesses whom Professor Deutsch interviewed or interrogated comprising virtually all the participants or observers who survived the period He also had access to previously unavailable French and

Belgian documents as well as to diaries and other private material As the author explains there were four major rounds of opposition to the Hitler regime the conspiracy described in this volume being the second IN many ways it was the round in which circumstances were the most favorable for success High military quarters were the most fully committed it was the only plan in which a foreign power at odds with Germany Britain took a supporting position and it was the only instance in which a notable outside figure Pius XII made his good offices available as an intermediary The role of the Pope in this conspiracy has been known in a general way since 1946 but Professor Deutsch's investigation is the first intensive study were at the core of the affair Josef Muller the Opposition agent who dealt with the Pope and who later became the Bavarian Minister of Justice and Rev Robert Leiber S F the Pope's confidential aide In his conclusion Professor Deutsch points out that the story of this conspiracy clearly testifies to the moral nature of the German resistance movement The author writes No term recurred more often in these months to define the conflict with the Third Reich than the decent Germany **War and Punishment** Hein Goemans, 2012-01-06 What makes wars drag on and why do they end when they do Here H E Goemans brings theoretical rigor and empirical depth to a long standing question of securities studies He explores how various government leaders assess the cost of war in terms of domestic politics and their own postwar fates Goemans first develops the argument that two sides will wage war until both gain sufficient knowledge of the other's strengths and weaknesses so as to agree on the probable outcome of continued war Yet the incentives that motivate leaders to then terminate war Goemans maintains can vary greatly depending on the type of government they represent The author looks at democracies dictatorships and mixed regimes and compares the willingness among leaders to back out of wars or risk the costs of continued warfare Democracies according to Goemans will prefer to withdraw quickly from a war they are not winning in order to appease the populace Autocracies will do likewise so as not to be overthrown by their internal enemies Mixed regimes which are made up of several competing groups and which exclude a substantial proportion of the people from access to power will likely see little risk in continuing a losing war in the hope of turning the tide Goemans explores the conditions and the reasoning behind this gamble for resurrection as well as other strategies using rational choice theory statistical analysis and detailed case studies of Germany Britain France and Russia during World War I In so doing he offers a new perspective of the Great War that integrates domestic politics international politics and battlefield developments The Dutch and German Communist Left (1900-68) Philippe Bourrinet, 2016-11-01 The Dutch German Communist Left represented by the German KAPD AAUD the Dutch KAPN and the Bulgarian Communist Workers Party separated from the Comintern 1921 on questions like electoralism trade unionism united fronts the one party state and anti proletarian violence It attracted the ire of Lenin who wrote his Left Wing Communism An Infantile Disorder against the Linkskommunismus while Herman Gorter wrote a famous response in his pamphlet Reply to Lenin The present volume provides the most substantial history to date of this tendency in the twentieth century Communist movement It covers how the Communist left with the KAPD AAU

denounced party communism and state capitalism in Russia how the German left survived after 1933 in the shape of the Dutch GIK and Paul Mattick's councils movement in the USA and also how the Dutch Communistenbond Spartacus continued to fight after 1942 for the world power of the workers councils as theorised by Pannekoek in his book Workers Councils 1946

**The Origins of World War Two** Robert Boyce, Joseph A. Maiolo, 2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two

**British Strategy and Politics during the Phony War** Nick Smart, 2003-02-28 The so called Phony War from September 1939 to May 1940 occupies a peculiar yet distinct place in popular memory All the sensations of war except the fighting were present yet instead of massed air attacks and great land battles very little happened The British government was said to be complacent and the people downright bored Then France fell to German attack and the small British army was evacuated minus its equipment from Dunkirk Reaction to this major strategic catastrophe was naturally to blame the men deemed guilty for bringing the nation to the verge of humiliating defeat In sharp contrast to previous studies Smart argues that there was more to the phony war than governmental complacency that the period was more than a foolish or frivolous ante chamber to a later more heroic phase The extent to which the guilty men verdict on the first nine months of Britain's Second World War has stuck remains surprising The notion that the phony war was a necessary indeed over determined prelude to catastrophe has become cemented over time Examining the workings of the Anglo French leadership during this period Smart picks this thesis apart and argues that disaster was not necessarily still less inevitably just around the corner He concludes that Anglo French decision making during this time was basically sound that the soldiers were well equipped and in good heart and that there was no malaise eating away at the entente This study offers a challenging reappraisal of the phony war from a British
