The World Is A Ghetto Race And Democracy Since World War II Howard Winant, 2001-05-30 A masterly account of world racial politics and the future of global race relations by a leading American sociologist *The New Politics Of Race* Howard Winant, 2004-08-13 The New Politics of Race brings together Winant's new and previously published essays to form a comprehensive picture of the origins and nature of the complex racial politics that engulf us today *Theories of Race and Racism* Les Back, John Solomos, 2020-08-14 Theories of Race and Racism A Reader is an important and innovative collection that brings together extracts from the work of scholars both established and up and coming who have helped to shape the study of race and racism as an historical and contemporary phenomenon This second edition incorporates new contributions and editorial material and allows readers to explore the changing terms of debates about the nature of race and racism in contemporary societies All six parts are organized around the contributions made by theorists whose work has been influential in shaping theoretical debates The various contributions have been chosen to reflect different theoretical perspectives and to help readers gain a feel for the changing terms of theoretical debate over time As well as covering the main concerns of past and recent theoretical debates it provides a glimpse of relatively new areas of interest that are likely to attract more attention in years to come On Class, Race, and Educational Reform Antonia Darder, Cleveland Hayes II, Howard Ryan, 2023-03-23 On Class Race and Educational Reform provokes new dialogue between Marxists critical race theory scholars and other race inspired educational theorists with the aim of countering racism and class inequalities The book opens with a lead chapter by Howard Ryan a doctoral student with a background in teaching and labor organizing that substantively engages questions of class race and educational reform In response to the opening chapter educational theorists from Germany South Africa the UK and the USA provide insightful and penetrating responses highlighting the differences and similarities in perspectives The responses show how educators can overcome theoretical differences to create international collaborations and educational campaigns of solidarity that counter the treacherous impact of racism and class inequalities in the classroom and beyond The book includes a Foreword by Stephen Brookfield University of St Thomas USA and an Afterword by Cheryl Matias University of Kentucky USA *The ^AFirst Civil Right* Naomi Murakawa, 2014-07-10 In The First Civil Right is a groundbreaking analysis of root of the conflicts that lie at the intersection of race and the legal system in America Naomi Murakawa inverts the conventional wisdom by arguing that the expansion of the federal carceral state a system that disproportionately imprisons blacks and Latinos was in fact rooted in the civil rights liberalism of the 1940s and early 1960s not in the period after **The SAGE Handbook of Sociology** Craig Calhoun, Chris Rojek, Bryan S Turner, 2005 Providing an authoritative guide to theory and method the key sub disciplines and the primary debates in contemporary sociology this work brings together the leading authors to reflect on the condition of the discipline
