

Liberal Theory of Citizenship: Introduction

- Citizenship referring to **‘full and equal membership** to a political community has **three essential components- right, responsibility and identity.**
- Full membership to a community is a **necessary condition for a good life.**
- **Pre-capitalist societies** were feudal, and were hierarchically ordained. **One’s work and one’s destiny were situated in one’s station in the social hierarchy.**
- It was capitalism which facilitated the emergence of liberal citizenship.
- When compared to republican citizenship the liberal variant **does not demand too many obligations from citizens.** It has a very weak and loose sense of membership.

Social Rights and the Egalitarian thrust to Liberal Citizenship

- The **addition of social rights** to the fold of liberal citizenship **curbed the latter’s individualist obsessions and provided an egalitarian thrust** to it.
- Thus, the **relationship between citizenship and capitalism started fraying.** The modern State is caught in the middle.
- The normative question that arises here is **what should the state do in this context.**

A Theory Of Citizenship Herman R. Van Gunsteren, 2018-10-08 Does vital citizenship require moral consensus Or is it the ability to organize their differences that allows people to live together as citizens in a republic Whereas liberal republican and communitarian theories of citizenship analyzed the conditions of citizenship the central message of this book is that the practical exercise of citizenship under conditions that are far from ideal is the main source of its vitality Instead of arguing for more participation it focuses on the citizenship of those who for whatever reason are already active in the public sphere Herman van Gunsteren develops a theory of citizenship well suited to the era of political reform that was inaugurated by the revolutions of 1989
