The Hero's Mask Guidebook provides practical strategies to be used alongside the The Hero's Mask novel. The Guidebook has been designed to promote an understanding of the impact of traumatic stress and what counselors, therapists, educators, parents, and caregivers can do to promote healing and recovery. The Guidebook and storybook can be used together to spark conversations around the difficult topics of loss and trauma and to create openings for renewing and strengthening emotionally supportive relationships with distressed children after traumatic experiences. The Guidebook identifies resources to access information about treatment programs and strategies that can help children and families with traumatic stress and integration of The Hero's Mask books with Real Life Heroes, an evidence-supported treatment program for children and families with traumatic stress.

[The Hero's Mask](#) Richard Kagan, 2020-10-14. The Hero's Mask is an engaging novel about Carrie, an eleven-year-old girl and her friends who work together to stop the bullies picking on their classmates as they unravel mysteries in their school. The novel traces Carrie's discovery of strengths within herself, her family, and her friends despite losses and hardships in her family and how Carrie is inspired by a new teacher who helps her learn the secrets of heroes. The Hero's Mask is a story about children and parents/caregivers overcoming fears and healing the wounds separating a mother and daughter, both scarred by traumatic grief. This book is also available to purchase alongside a guidebook as part of the two-component set The Hero's Mask: Helping Children with Traumatic Stress. This essential resource provides a resiliency-focused guide for promoting trauma-informed schools and child and family services to help children and families experiencing traumatic stress.

Posttraumatic Stress Disorder in Childhood and Adolescence Patricia K. Kerig, 2017-05-23. With the publication of the new Diagnostic and Statistical Manual of Mental Disorders (DSM-5) and the recent release of the draft diagnostic criteria to be used in the forthcoming International Classification of Diseases (ICD-11), students, researchers, and clinicians are in need of an authoritative and practical guide to understanding the diagnosis of posttraumatic stress disorder (PTSD) in childhood and adolescence. This is particularly the case given that, other than designating a separate diagnosis with a smaller number of symptoms for preschoolers, these new diagnostic compendia provide little information regarding developmental differences in the onset, expression, and course of the disorder. Child and adolescent mental health professionals, whether they are students in training, practitioners, or scientists, will benefit from this book's summaries of the available research on PTSD in young persons, descriptions of how the expression and consequences of PTSD might change across developmental periods, and suggested strategies for differential diagnosis between PTSD and other disruptive behavioral and emotional disorders that present with overlapping symptoms across childhood and adolescence. The author also discusses cutting-edge issues such as the constructs of posttraumatic growth and resilience and summarizes the evidence base for treatments focused on alleviating PTSD in young persons through interventions targeting the individual, youth, the family, and their larger ecological contexts.
