F. Bosher, 2010-04 During the century 1850-1950 Vancouver Island attracted Imperial officers and other Imperials from India the British Isles and elsewhere in the Empire Victoria was the main British port on the north west Pacific Coast for forty years before the city of Vancouver was founded in 1886 to be the coastal terminus of the Canadian Pacific Railway These two coastal cities were historically and geographically different The Island joined Canada in 1871 and thirty five years later the Royal Navy withdrew from Esquimalt but Island communities did not lose their Imperial character until the 1950s P 4 of cover *Imperial Borderlands* Marie de Rugy, 2021-10-18 This book presents a connected history of South East Asian borderlands drawing on late nineteenth century British and French geographical policies and practice It focuses on the scramble in Asia when in 1885 the British Raj incorporated Upper Burma and the French created a Protectorate in Annam Tonkin the Northern part of present day Vietnam Fought over by the imperial states and neighbouring nations the frontier zones were fashioned and represented not only by the two European powers but also by the Chinese Empire the Kingdom of Siam and the local populations The counterpoint between the discourses produced and the cartographical practices on the ground in the longue durée reveals the interacting processes of territory building in all their unpredictability This book is the updated version of the author's *Aux confins des empires Cartes et constructions territoriales dans le nord de la péninsule indochinoise 1885-1914* Paris éditions de la Sorbonne 2018 It is translated by Saskia Brown and

Great Game On Geoff Raby, 2024-11-12 *Great Game On* is the story of the remaking of the world order Historically China has sought its security by building dominant relationships with pliant states that accept its pre eminence Its expanding role and influence in Central Asia has been as incremental and piecemeal as it has been deliberate Without firing a shot China could potentially end the United States international primacy to become the most consequential global power With its emergence as the leading power in Eurasia based on its inexorable economic rise and Putin s folly in Ukraine China has been released from its past existential anxieties about land based threats from Eurasia It now has the chance to project its power globally as the US did from the early twentieth century when it became the dominant power in the western hemisphere What threats and risks must China address And what happens when China becomes the established stable dominant power in Eurasia Australia s former ambassador to China Geoff Raby takes the reader on a journey across Eurasia to understand the forces shaping its geopolitics Raby enriches this analysis by weaving his own travel stories experiences and adventures into the fabric of his narrative This book is geopolitics on a grand canvas written from the ground up

Travellers and Cosmographers Joan-Pau Rubiés, 2023-06-14 Joan Pau Rubi s brings together here eleven

studies published between 1991 and 2005 that illuminate the impact of travel writing on the transformation of early modern European culture. The new worlds that European navigation opened up at the turn of the 16th century elicited a great deal of curiosity and were the subject of a vast range of writings, much of them with an empirical basis albeit often subtly fictionalized. In the context of intense literary and intellectual activity that characterized the Renaissance, the encounters generated by European colonial activities in fact produced a remarkable variety of images of human diversity. Some of these images were conditioned by the actual dynamics of cross-cultural encounters overseas, but many others were elaborated in Europe by cosmographers, historians, and philosophers pursuing their own moral and political agendas. As the studies included here show, the combined effect was in the long term dramatic, interacting with the impact of humanism and of insurmountable religious divisions, travel writing decisively contributed to the transformation of European culture towards the concerns of the Enlightenment. The essays illuminate this process through a combination of general discussions and the contextual analysis of particular texts and debates, ranging from the earliest ethnographies produced by merchants travelling to Asia with Vasco da Gama to the writings of Jesuit missionaries researching idolatry in India and China or thinkers like Hugo Grotius seeking to explain the origin of the American Indians.

Missionary Women Rhonda Anne Semple, 2003

Under the influence of wise and devoted and spiritually minded colleagues, she is a lady of much ability and intelligence. The selection and training of candidates for LMS work in North India, the feeblest work in all of India. Good temper and common sense are invaluable to the Church of Scotland Eastern Himalayan Mission. The work of the CIM at Chefoo, faith-filled generations. Gender and the professionalization of Victorian society, the mission example. Conclusion: fools for Christ.

Kashmir Imbroglio M. G. Chitkara, 1996 Asia Past and Present Peter P. Wan, Thomas D. Reins, 2021-02-17

A wide-ranging introduction to the multi-faceted history of Asia from early origins to the present. *Asia Past and Present* is an expansive survey of the social, political, and economic history of the continent from the Paleolithic era to the early 21st century. As there is no physically discrete continent, rather an arbitrary division of the Eurasian landmass, this book focuses on terrain that encompasses India, Pakistan, Afghanistan, Central Asia, China, Korea, Japan, Mongolia, the Russian Far East, and Southeast Asia, the area which most modern scholars identify as Asia. Offering broad chronological and topical coverage of Asia, this book examines subjects including written languages, religions, and philosophies, concepts of monarchy, militarism, independence, and nation building, and more. Particular focus is placed on the varying levels of influence the core cultures of India and China have had on the continent in a multitude of socio-political areas. Historical dialogues of how colonies, later emerging nations, blended traditional Asian culture and Western political and economic models of modernization complement contemporary discussions of globalization, nuclear tensions, and growing demands for greater individual freedom. Written in an engaging, accessible style, this book covers a wide range of topics, perspectives, geographic regions, and time periods. Highlights India and China as the pre-19th century cultural cores of Asia. Presents a relatable political-cultural narrative.

framework Discusses contemporary themes including gender sexual orientation the environment and Western and Islamic influence on Asian culture Includes coverage of commonly underrepresented regions such as the Himalayan nations Maldives and New Guinea Asia Past and Present A Brief History is a valuable resource for undergraduate courses where Asian cultures are introduced and in courses on Asian politics diplomacy environmental issues and socio economics
