Christian Home Educators' Curriculum Manual Cathy Duffy, 1997-11 Experiences and Research on Enhanced Professional Development Through Faculty Learning Communities Blankenship, Rebecca J., Wiltsher, Cheree Y., Moton, Brandon A., 2022-06-24 Faculty learning communities are a fairly new ideology that is gaining traction among educators and institutions. These communities have numerous benefits on professional development such as enhancing educator preparedness and learning. The possibilities of these communities are endless; however, further study is required to understand how these learning communities work and the best practices and challenges they face. Experiences and Research on Enhanced Professional Development Through Faculty Learning Communities shares the experiences and research related to the enhanced professional development received by university faculty and staff participating in a series of collaborative faculty learning communities. The book, using qualitative, quantitative, and mixed methodologies, considers educator experiences as participants in the faculty learning communities, what they learned, and how they applied and implemented best practices in their courses. Covering topics such as curricula, course design, and rubrics, this reference book is ideal for administrators, higher education professionals, program developers, program directors, researchers, academicians, scholars, practitioners, instructors, and students. *Illinois Education*, 1957 *Book Bulletin* Chicago Public Library, 1912
