Understanding Rhetoric Eamon M. Cunningham, 2020-01-01 *Understanding Rhetoric A Guide to Critical Reading and Argumentation* is a composition textbook that outlines three essential skills rhetoric argument and source based writing geared towards newcomers and advanced students alike Though comprehensive in its coverage the book s focus is a simple one how to move beyond a gut reaction while reading to an articulation of what is effective and what is not while explicitly answering the most important question of Why This text gets at this central concern in two fundamental ways First the text teaches composition as a cumulative process coaching you how to question challenge and expand on not just the readings you hold in your hands but also how to interrogate the internal processes of writing and thinking The book s blend of composition methods detail the cross point of product and process to turn reading and writing from a matter of coming up with answers to questions to learning what type of questions need to be asked in the first place The right questions the text argues are fundamentally rhetorical in nature Second the content of the practice based chapters is framed into a larger mesh of intellectual history to show how the writing and thinking you are doing today is continuous with a long history of writing instruction that goes back to the ancient world This book provides equal representation from classical and contemporary theory with the recognition that theory cannot be fully grasped without practice and practice cannot be fully understood without its theoretical antecedent After all you can t write outside the box until you know where the box is and what it looks like

Classical Rhetoric and Contemporary Law Kirsten K.

Davis, Brian N. Larson, Francis J. Mootz, Kristen K. Tiscione, 2024-04-30 From the twin birth of western rhetoric and law in the Greek speaking world in the first millennium BCE law and rhetoric were deeply connected in the ancient world In the modern era of legal practice the clear connections between law and classical rhetoric have largely been lost to both those trained in the law and those who study rhetoric This interdisciplinary reader reestablishes those lost connections by pairing primary source materials in classical rhetoric and contemporary law The chapters in this volume show that ancient rhetorical texts can deepen or disrupt contemporary notions about principles that lie at the root of western legal traditions and return to us our past making it possible for scholars across several disciplines to build on work accomplished centuries before Broken into four parts this volume first covers the historical development of rhetoric In Part Two volume editor Mootz and scholar David A. Frank look at rhetorical theorists at bookends of an era when classical rhetoric was devalued as a mode of thought Mootz discusses the hegemonic wave of Enlightenment epistemology that separated law from rhetoric and Frank shows that where Cartesian rationality fails in the modern era the humanistic tradition of rhetoric allows law to respond to the needs of justice Part Three consists of ten chapters that each 1 introduce a classical rhetorical theorist to the reader 2 provide an excerpt from a text by that theorist and then 3 demonstrate the relevance of that work to a contemporary court case Moving from the Sophists through Aristotle and Plato and their Greek contemporaries to the Roman rhetoricians Cicero and Quintilian and finally to the early medieval rhetorician St Augustine these reprinted classical texts are contextualized by leading scholars in law classics and rhetoric each with probing discussion questions for readers to engage and interact with the materials rhetorically This vital resource of primary texts demonstrates how rhetoric illuminates the operation of the legal system and reconnects law to its rhetorical roots Structured for use by scholars in critical inquiry and well suited for use in graduate or law school courses **Classical Rhetoric and Contemporary Law** will be of interest to law rhetoric English and communication scholars and as an interactive catalyst to examine the ways in which ancient rhetorical theory informs our understanding of law practice today

In the research unit, students will learn and employ advanced research skills from crafting open-ended research questions and discerning between reliable sources. They will carry out their own research study and present findings at a research gala. These units focus on critical literacy skills including reading diverse texts, understanding a speaker's or author's perspective, and understanding an audience's perspective. Winner of the 2016 NAGC Curriculum Studies Award Grade 5

Participatory Critical Rhetoric Michael Middleton, Aaron Hess, Danielle Endres, Samantha Senda-Cook, 2015-12-16. Increasingly, rhetorical scholars are using fieldwork and other ethnographic performance and qualitative methods to access document and analyze forms of everyday in situ rhetoric rather than using already documented texts. In this book, the authors argue that participatory critical rhetoric as an approach to in situ rhetoric is a theoretically, methodologically, and praxiologically robust approach to critical rhetorical studies. This book addresses how participatory critical rhetoric furthers understanding of the significant role that rhetoric plays in everyday life through expanding the archive of rhetorical practices and texts, emplacing rhetorical critics in direct conversation with rhetors and audiences at the moment of rhetorical invention, and highlighting marginalized voices that might otherwise go unnoticed. This book organizes the theoretical and methodological foundations of participatory critical rhetoric through four vectors that enhance conventional rhetorical approaches: 1) the political commitments of the critic, 2) rhetorical reflexivity and the role of the embodied critic, 3) emplaced rhetoric and the interplay between the field, text, and context, and 4) multiperspectival judgment that is informed by direct participation with rhetors and audiences. In addition to laying the groundwork and advocating for the approach, *Participatory Critical Rhetoric* also offers significant contributions to rhetorical theory and criticism more broadly by revisiting the field's understanding of core topics such as role of the critic, text, context, audience, rhetorical effect, and the purpose of criticism. Further, it enhances theoretical conversations about material rhetoric, place, space, affect, intersectional rhetoric, embodiment, and rhetorical reflexivity.

Rhetorical Touch Shannon Walters, 2014-10-20. *Rhetorical Touch* argues for an understanding of touch as a rhetorical art by approaching the sense of touch through the kinds of bodies and minds that rhetorical history and theory have tended to exclude. In resistance to a rhetorical tradition focused on shaping able bodies and neurotypical minds, Shannon Walters explores how people with various disabilities, psychological, cognitive, and physical, employ touch to establish themselves as communicators and to connect with disabled and nondisabled audiences. In doing so, she argues for a theory of rhetoric that understands and values touch as rhetorical. Essential to her argument is a redefinition of key concepts and terms: the rhetorical situation, rhetorical identification, and the appeals of ethos, character, pathos, emotion, and logos, logic, or message. By connecting Empedoclean and sophistic theories to Aristotelian rhetoric and Burkean approaches, Walters's methods mobilize a wide range of key figures in rhetorical history.

and theory in response to the context of disability Using Empedocles tactile approach to logos Walters shows how the iterative writing processes of people with psychological disabilities shape crucial spaces for identification based on touch in online and real life spaces Mobilizing the touch based properties of the rhetorical practice of m tis Walters demonstrates how rhetors with autism approach the crafting of ethos in generative and embodied ways Rereading the rhetorical practice of kairos in relation to the proximity between bodies Walters demonstrates how writers with physical disabilities move beyond approaches of pathos based on pity and inspiration The volume also includes a classroom based exploration of the discourses and assumptions regarding bodies in relation to haptic or touch based technologies Because the sense of touch is the most persistent of the senses Walters argues that in contexts of disability and in situations in which people with and without disabilities interact touch can be a particularly vital instrument for creating meaning connection and partial identification She contends that a rhetoric thus reshaped stretches contemporary rhetoric and composition studies to respond to the contributions of disabled rhetors and transforms the traditional rhetorical appeals and canons Ultimately Walters argues a rhetoric of touch allows for a richer understanding of the communication processes of a wide range of rhetors who use embodied strategies

Cognitive Neural Mechanism of Semantic Rhetoric Qiaoyun Liao, Lijun Meng, 2022-10-21 This book is a necessary supplement to the theoretical exploration into semantic rhetoric particularly a breakthrough in the study of the relationship between the source domain and target domain involved in the construction of semantic rhetorical discourse The study focuses on rhetorical expressions constructed by means of semantic variation or deviation of concepts Based on the holistic cognitive pragmatic model and the framework of impartment and inheritance of connotation and denotation this book constructs a new framework the Annotation Denotation Relevance Inheritance Model ADRIM to explain the construing of semantic rhetoric Besides rooted in the Index Hypothesis Theory and the research paradigm of affordance derivation in language comprehension three ERP experiments on metaphor irony and pun are conducted to demonstrate the psychological reality that people activate possible feature extraction in the process of understanding semantic rhetoric With those sample analyses and experiments the feasibility and operability of ADRIM are proved The book unfolds a combined approach of speculative research and empirical research and can provide a new
