Underwater Foraging - Freediving for Food Ian Donald, 2013-05-23 In this full colour large format publication by master freediving instructor and expert marine forager Ian Donald you will be taught in a step by step manner how to freedive forage for marine foods and spearfish all with sustainability in mind Fishery Bulletin ,1980 **The Sensory Ecology of Birds** Graham R. Martin, 2017-03-30 Birds are renowned for their exceptional vision and the way that this enables them to survive and navigate the world in such a unique way However it is now recognised that avian behaviour is guided by information drawn from many different senses which are then used in integrated and complementary ways to answer the many different sensory challenges posed by specific environments and particular tasks Understanding how sensory information is used by birds has important applications in conservation such as providing vital insights into why birds are prone to collisions with structures like power lines and wind turbines and why so many diving birds become entrapped in nets A sensory ecology approach suggests how these problems can be mitigated The Sensory Ecology of Birds ranges widely across species environments and behaviours to present a synthesis that challenges previous assumptions about the information that controls the behaviour of birds A bird may use a wide range and combination of sensory information that comes from sight hearing smell mechanoreception taste and magnetoreception It may also include specific refinements of senses such as echolocation and remote touch from the bill The book recognises that there are many complex and subtle trade offs and complementarities of information between different types of sensory information This accessible text will be of interest to a wide ornithological readership from undergraduates to researchers as well as a broader audience of behavioural ecologists and evolutionary biologists Animal Behaviour Abstracts ,2002 **Annual Report** Delta Waterfowl and Wetlands Research Station, 1984 *Auks at Sea* Pacific Seabird Group.
