Unholy Alliance Peter Levenda:

Unholy Alliance Peter Levenda, 2019-11-15 In June of 1979 Peter Levenda flew to Chile then under martial law to investigate claims that a mysterious colony and torture center in the Andes Mountains held a key to the relationship between Nazi ideology and its post war survival on the one hand and occult ideas and practices on the other He was detained there briefly and released with a warning You are not welcome in this country The people who warned him were not Chileans but Germans not government officials but agents of the assassination network Operation Condor They were also Nazis providing a sanctuary for men like Josef Mengele Hans Ulrich Rudel and Otto Skorzeny In other words ODESSA Published in 1995 *Unholy Alliance* was the first book in English on the subject of Nazi occultism to be based on the captured Nazi archives themselves as well as on the author's personal investigations and interviews often conducted under dangerous conditions The book attracted the attention of historians and journalists the world over and has been translated into six languages A later edition boasts the famous foreword by Norman Mailer How did occultism come to play such an important role in the development of Nazi political ideology What influence did such German and Austrian occult leaders as Lanz von Liebenfels and Guido von List have over the fledgling Nazi party What was the Thule Gesellschaft and who was its creator Baron von Sebottendorf Did the Nazi high command really believe in occultism In astrology In magic and reincarnation This is a new and expanded edition of the original text with much additional information on the rise of extremist groups in Europe Latin America Asia and the United States and the esoteric beliefs that are at their foundations It is the first book in a trilogy that includes *Ratline* and *The Hitler Legacy* This is where it all began *Unholy Alliance* Peter Levenda, 2002 *Kundalini Tales* Richard Sauder, 1998-07 Sauder continues his studies of underground bases with new information on the occult underpinnings of the US space programme The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance Included are chapters on the secret space programme and a 130 page appendix of patents and schematic diagrams of secret technology and mind control devices

Black Terror White Soldiers David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seem to include secularism human rights democracy and capitalism

have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history

The Esoteric Wagner Michael Besack, 2004 Wagner s Ring is one of the most complex dramatic creations of modern times and its stage presentation requires impossible resources It also demands an educated audience without which there is not much justification for a performance The tetralogy is full of difficult narratives and dialogues that make a prior in depth reading of the libretto a must It is not just a matter of figuring out the plot as in other operas but of exploring the many levels of meaning through which the Ring unfolds In addition the cycle incorporates esoteric themes that have seldom been discussed in connection with Wagner This background is unknown territory to most people and it is unrealistic to expect sudden enlightenment from the Ring s libretto alone Every classical journey deals with the promise of a homecoming and it is therefore not surprising that Wotan the main protagonist in the Ring eventually

reemerges in the Land of the Grail where he is converted into Titirel by Wagner's poetic imagination Ernest Newman Wagner's quintessential biographer had already noted this odd development but did not pause long enough to consider the startling implications One should not look at Wagner in disconnected narrow ways The dismal level of today's intellectual discourse on Tragedy makes it impossible to do justice to the composer's apocalyptic vision In that context it is important to address the increasingly popular contention that Wagner was Hitler's spiritual father and that the Ring is a dangerous anti-Semitic fantasy The Holocaust is indeed tragic but its reduction to a moral failure on the part of Germanic culture understates the metahistorical significance of what actually happened C J Jung once tried to tackle these issues directly in his study of the Wotan archetype 1936 but his analysis has since been buried under the weight of more detailed but less perceptive commentaries A vigorous reassessment is long overdue **The Monstrous and the Dead** Mark Neocleous, 2005
