The State of the American Mind Mark Bauerlein, Adam Bellow, 2015-06-16 In 1987 Allan Bloom's *The Closing of the American Mind* was published a wildly popular book that drew attention to the shift in American culture away from the tenants that made America and Americans unique Bloom focused on a breakdown in the American curriculum but many sensed that the issue affected more than education The very essence of what it meant to be an American was disappearing That was over twenty years ago Since then the United States has experienced unprecedented wealth more youth enrolling in higher education than ever before and technology advancements far beyond what many in the 1980s dreamed possible And yet the state of the American mind seems to have deteriorated further Benjamin Franklin's self made man has become a man dependent on the state Independence has turned into self absorption Liberty has been curtailed in the defense of multiculturalism In order to fully grasp the underpinnings of this shift away from the self reliant well informed American editors Mark Bauerlein and Adam Bellow have brought together a group of cultural and educational experts to discuss the root causes of the decline of the American mind The writers of these fifteen original essays include E D Hirsch Nicholas Eberstadt and Dennis Prager as well as Daniel Dreisbach Gerald Graff Richard Arum Robert Whitaker David T Z Mindich Maggie Jackson Jean Twenge Jonathan Kay Ilya Somin Steve Wasserman Greg Lukianoff and R R Reno Their essays are compiled into three main categories States of Mind Indicators of Intellectual and Cognitive Decline These essays broach specific mental deficiencies among the population including lagging cultural IQ low Biblical literacy poor writing skills and over medication Personal and Cognitive Habits Interests These essays turn to specific mental behaviors and interests including avoidance of the news short attention spans narcissism and conspiracy obsessions National Consequences These essays examine broader trends affecting populations and institutions including rates of entitlement claims voting habits and a low performing higher education system *The State of the American Mind* is both an assessment of our current state as well as a warning foretelling what we may yet become For anyone interested in the intellectual fate of America *The State of the American Mind* offers an accessible and critical look at life in America and how our collective mind is faring

The State of the American Mind Mark Bauerlein, Adam Bellow, 2015-05-22 In 1987 Allan Bloom's *The Closing of the American Mind* was published a wildly popular book that drew attention to the shift in American culture away from the tenants that made America and Americans unique Bloom focused on a breakdown in the American curriculum but many sensed that the issue affected more than education The very essence of what it meant to be an American was disappearing That was over twenty years ago Since then the United States has experienced unprecedented wealth more youth enrolling in higher education than ever before and technology advancements far beyond what many in the 1980s dreamed possible And yet the state of the American mind seems to have deteriorated further Benjamin Franklin's self made man has become a man dependent on the state Independence has turned into self absorption Liberty has been curtailed in the defense of multiculturalism In order to

fully grasp the underpinnings of this shift away from the self-reliant well-informed American editors Mark Bauerlein and Adam Bellow have brought together a group of cultural and educational experts to discuss the root causes of the decline of the American mind. The writers of these fifteen original essays include E. D. Hirsch, Nicholas Eberstadt, and Dennis Prager, as well as Daniel Dreisbach, Gerald Graff, Richard Arum, Robert Whitaker, David T. Z. Mindich, Maggie Jackson, Jean Twenge, Jonathan Kay, Ilya Somin, Steve Wasserman, Greg Lukianoff, and R. R. Reno. Their essays are compiled into three main categories: States of Mind, Indicators of Intellectual and Cognitive Decline, and Personal and Cognitive Habits. These essays broach specific mental deficiencies among the population, including lagging cultural IQ, low Biblical literacy, poor writing skills, and over-medication. These essays turn to specific mental behaviors and interests, including avoidance of the news, short attention spans, narcissism, and conspiracy obsessions. These essays examine broader trends affecting populations and institutions, including rates of entitlement, claims, voting habits, and a low-performing higher education system. The State of the American Mind is both an assessment of our current state as well as a warning foretelling what we may yet become. For anyone interested in the intellectual fate of America, The State of the American Mind offers an accessible and critical look at life in America and how our collective mind is faring.

American Labyrinth Raymond Haberski, Jr., and Andrew Hartman, 2018-12-15. *American Labyrinth* contains a stimulating and useful collection of essays by historians reflecting on American intellectual history. As a whole, the book convinces the reader that the field of intellectual history is enjoying a renaissance. The book will be especially prized by intellectual historians, but historians of many different persuasions will find these essays rewarding too. Intellectual history has never been more relevant and more important to public life in the United States. In complicated and confounding times, people look for the principles that drive action and the foundations that support national ideals. *American Labyrinth* demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions. This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest. Raymond Haberski Jr. and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question: How might the resources of intellectual history help shed light on contemporary issues with historical resonance? The answers are as eclectic in approach and temperament as the authors are different in their interests and methods. Taken together, the essays of *American Labyrinth* illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict. In order to understand why people are ready to fight over cultural symbols and political positions, we must have insight into how ideas organize, enliven, and define our lives. Ultimately, as Haberski and Hartman show in this volume, the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas.

Missional Life in Practice and Theory Christopher L. Flanders, Greg McKinzie, 2024-01-19. Few missiologists have impacted mission theory and practice among Churches of

Christ as significantly as has Dr Gailyn Van Rheezen yet his global missiological influence has extended far beyond the boundaries of his denominational heritage This Festschrift in honor of Gailyn Van Rheezen contains original missiological contributions from colleagues and former students Most chapters were presentations at the inaugural Gailyn Van Rheezen Sessions in Mission and World Christianity at the 2021 Christian Scholars Conference in Nashville Tennessee The volume is organized to parallel the phases of Van Rheezen s career Africa academic missiology and Mission Alive a North American church planting organization His legacy is one that wonderfully embodies critical theory and robust practice **Religious**

Studies Scholars as Public Intellectuals Sabrina D. MisirHiralall,Christopher L. Fici,Gerald S. Vigna,2018-06-13 The prominence of religion in recent debates around politics identity formation and international terrorism has led to an increased demand on those studying religion to help clarify and contextualise religious belief and practice in the public sphere While many texts focus on the theoretical development of the subject this book outlines a wider application of these studies by exploring the role of religious studies scholars and theologians as public intellectuals This collection of essays first seeks to define exactly what makes an intellectual public It then goes on to deal with a few questions of concern How do public intellectuals construct knowledge in religious and theological scholarship What is the link between public intellectuals of higher education and their role in society Do higher education institutions have a responsibility to endorse public intellectualism Looking at the individual and collective role of religious studies scholars and theologians in public life this book will be of great interest to all scholars and academics involved in religious studies and theology across the academy

The Dumbest Generation Grows Up Mark Bauerlein,2022-02-01 From Stupefied Youth to Dangerous Adults Back in 2008 Mark Bauerlein was a voice crying in the wilderness As experts greeted the new generation of Digital Natives with extravagant hopes for their high tech future he pegged them as the Dumbest Generation Today their future doesn t look so bright and their present is pretty grim The twenty somethings who spent their childhoods staring into a screen are lonely and purposeless unfulfilled at work and at home Many of them are even suicidal The Dumbest Generation Grows Up is an urgently needed update on the Millennials explaining their not so quiet desperation and more important the threat that their

ignorance poses to the rest of us Lacking skills knowledge religion and a cultural frame of reference Millennials are anxiously looking for something to fill the void Their mentors have failed them Unfortunately they have turned to politics to plug the hole in their souls Knowing nothing about history they are convinced that it is merely a catalogue of oppression inequality and hatred Why they wonder has the human race not ended all this injustice before now And from the depths of their ignorance rises the answer Because they are the first ones to care All that is needed is to tear down our inherited civilization and replace it with their utopian aspirations For a generation unacquainted with the constraints of human nature anything seems possible Having diagnosed the malady before most people realized the patient was sick Mark Bauerlein surveys the psychological and social wreckage and warns that we cannot afford to do this to another generation **Handbook of**
