

The Streamline Era Greyhound Terminals

The Architecture of W.S. Arrasmith

FRANK E. WRENICK

with the editorial assistance of Elaine V. Wrenick

Foreword by Richard Longstreth

The Streamline Era Greyhound Terminals The Architecture Of Ws Arrasmith

Richard Striner, Melissa Blair

The Streamline Era Greyhound Terminals The Architecture Of Ws Arrasmith:

The Streamline Era Greyhound Terminals Frank E. Wrenick, 2007 This volume explores the life and achievements of William Strudwick Arrasmith one of architecture's defining artists during the short lived era of streamline design It examines Arrasmith's development as architect focusing on his work for Greyhound during their streamline era from 1937 to 1958 A full chronology of Arrasmith's firms and commissions is also included Provided by publisher Washington and Baltimore Art Deco Richard Striner, Melissa Blair, 2014-04-30 Art Deco buildings still lift their modernist principles and streamlined chrome into the skies of Baltimore and Washington D C Second Place Winner of the Design and Effectiveness Award of the Washington Publishers The bold lines and decorative details of Art Deco have stood the test of time since one of its first appearances in the International Exhibition of Modern Decorative and Industrial Arts in Paris in 1925 Reflecting the confidence of modern mentality streamlined chrome and glossy black along with simple elegance sharp lines and cosmopolitan aspirations Art Deco carried surprises juxtaposing designs growing out of speed racecars and airplanes with ancient Egyptian and Mexican details visual references to Russian ballet and allusions to Asian art While most often associated with such masterworks as New York's Chrysler Building Art Deco is evident in the architecture of many U S cities including Washington and Baltimore By updating the findings of two regional studies from the 1980s with new research Richard Striner and Melissa Blair explore the most significant Art Deco buildings still standing and mourn those that have been lost This comparative study illuminates contrasts between the white collar New Deal capital and the blue collar industrial port city while noting such striking commonalities as the regional patterns of Baltimore's John Jacob Zinc who designed Art Deco cinemas in both cities Uneven preservation efforts have allowed significant losses but surviving examples of Art Deco architecture include the Bank of America building in Baltimore now better known as 10 Light Street and the Uptown Theater on Connecticut Avenue NW in Washington Although possibly less glamorous or flamboyant than exemplars in New York or Miami the authors find these structures along with apartment houses and government buildings typical of the Deco architecture found throughout the United States and well worth preserving Demonstrating how an international design movement found its way into ordinary places this study will appeal to architectural historians as well as regional residents interested in developing a greater appreciation of Art Deco architecture in the mid Atlantic region *Wicked Problems* Guru Madhavan, 2024-03-26 An ode to systems engineers whose invisible work undergirds our life and an exploration of the wicked problems they tackle Our world is filled with pernicious problems How for example did novice pilots learn to fly without taking to the air and risking their lives How should cities process mountains of waste without polluting the environment Challenges that tangle personal public and planetary aspects often occurring in health care infrastructure business and policy are known as wicked problems and they are not going away anytime soon In linked chapters focusing on key facets of systems engineering efficiency vagueness vulnerability safety maintenance and resilience engineer Guru Madhavan

illuminates how wicked problems have emerged throughout history and how best to address them in the future He examines best known tragedies and lesser known tales from the efficient design of battleships to a volcano eruption that curtailed global commerce and how maintenance of our sanitation systems constitutes tikkun olam or repair of our world Braided throughout is the uplifting tale of Edwin Link an unsung hero who revolutionized aviation with his flight trainer In Link s story Madhavan uncovers a model mindset to engage with wickedness An homage to society s innovators and maintainers Wicked Problems offers a refreshing vision for readers of all backgrounds to build a better future and demonstrates how engineering is a cultural choice one that requires us to restlessly find ways to transform society but perhaps more critically to care for the creations that already exist

Socialism before Sanders Jake Altman,2019-06-13 The early years of the twentieth century are often thought of as socialism s first heyday in the United States when the Socialist Party won elections across the country and Eugene Debs ran for president from a prison cell winning more than 900 000 votes Less well known is the socialist revival of the 1930s Radicalized by the contradiction of crushing poverty and unimaginable wealth that existed side by side during the Great Depression socialists built institutions organized the unemployed extended aid to the labor movement developed local political movements and built networks that would remain active in the struggle against injustice throughout the twentieth century Jake Altman brings this overlooked moment in the history of the American left into focus highlighting the leadership of women the development of the Highlander Folk School and Soviet House and the shift from revolutionary rhetoric to pragmatic reform by the close of the decade As another socialist revival takes shape today this book lays the groundwork for a more nuanced history of the movement in the United States

Postcard America Jeffrey L. Meikle,2016-01-20 From the Great Depression through the early postwar years any postcard sent in America was more than likely a linen card Colorized in vivid often exaggerated hues and printed on card stock embossed with a linen like texture linen postcards celebrated the American scene with views of majestic landscapes modern cityscapes roadside attractions and other notable features These colorful images portrayed the United States as shimmering with promise quite unlike the black and white worlds of documentary photography or Life magazine Linen postcards were enormously popular with close to a billion printed and sold Postcard America offers the first comprehensive study of these cards and their cultural significance Drawing on the production files of Curt Teich Co of Chicago the originator of linen postcards Jeffrey L Meikle reveals how photographic views were transformed into colorized postcard images often by means of manipulation adding and deleting details or collaging bits and pieces from several photos He presents two extensive portfolios of postcards landscapes and cityscapes that comprise a representative iconography of linen postcard views For each image Meikle explains the postcard s subject describes aspects of its production and places it in social and cultural contexts In the concluding chapter he shifts from historical interpretation to a contemporary viewpoint considering nostalgia as a motive for collectors and others who are fascinated today by these striking images

Best of the Rust Belt Anne Trubek,2024-07-02 The best personal essays

from a contested region from Belt Publishing's ten years as a press. Many have an opinion on what the Rust Belt is. It's the blue wall, Trump country, the flyover states, or the real America. Or maybe, as our own president has said, it's a place that no longer exists, called by a name that has long outlived its usefulness. But undeniably, there's something that connects the region. Maybe the question isn't what defines that connection, but who. Over the past ten years, Belt Publishing has been putting out books that prioritize the voices of the many people who live here. We've collected our favorite writing from our dozens of anthologies from Pittsburgh to Gary, Chicago to St. Louis, Milwaukee to Cleveland, and more, documenting growing up in segregated St. Louis and elucidating the coded Islamophobia of southern Michigan. Featuring LaToya Ruby Frazier, Connie Schultz, Brian Broome, Megan Stielstra, Vivian Gibson, Aaron Foley, Kathleen Rooney, Sarah Kendzior, Phil Christman, and more.
