This practice exam book contains a mixture of old questions from the USPTO that were freely distributed, new questions that we have created, and old questions that have been considerably updated. If you can get some of these questions free, why should you pay for them? There were several old exams published and distributed freely online by the USPTO and many of these questions have circulated around the Internet. The problem is out of the questions that were made available, more than half of them are

outdated If you simply take the old exams which you can still find online and start studying from them using the currently tested MPEP you ll be in for a very frustrating experience Those questions were all created in the early 2000 s therefore they are over ten years old The PES team has spent hundreds of hours reviewing old exam questions correcting them deleting those that no longer apply updating the MPEP cross referencing in the explanations and creating new exam questions on new material Some of the questions in this manual will be similar to questions you see on your exam on test day However it s best to use this manual to understand why the correct answer is marked as the best choice rather than to try to memorize the questions Learn the material first through careful review of the MPEP or one of our other study aids Then try your hand at the practice questions in this manual Get on the road to beginning your career in patent law today *Bimonthly Review of Law Books* ,1996 *ROE Powers ROI* R.
