Rehabilitation Research & Development, 1997 **Research Outlook, Innovations & Research Trends in Science & Technology** Prof S S Rajput, Prof Dr Zeliha Selamoglu, Dr Prashant P Chaudhari, Mrs Priyanka Gupta, 2020-10-25 This book is focused predominantly on academicians research scholars belong to science and engineering managers scientists technicians and other professionals in the field of qualitative research This book is comprehended from different sources of research in Science and Technology On the first occasion the task of providing researchers with a broad view of the relationship between science and technology The second reason for writing the book was the need to fill a gap in academics and research While many excellent books documents and article exist for innovative practices we have not found a work in which we can properly understand the content that the researcher needs to understand So after much deliberation we decided to collect all quality efforts in one string At the most basic level this book is trying to show research scholars what science technology and innovations are all about It cannot study or gain knowledge of that part and is at a level that most researchers should find clear and understandable Our goal was to develop content that will help researchers who are beginning to use innovative practices We hope to meet the needs of academicians research scholars who are being encouraged to incorporate more

reading and writing in the field of science and technology In summary this book is targeted to the needs of individuals engaged in quality research activities in science and technology Our goal is to present the topics of creativity and innovation to this audience in a way that enables them to incorporate new skills into their daily work We would like to thank all the contributors who have made the production of this book so fascinating and enjoyable Their scholarship and dedicated commitment and motivation to getting it right are the keys to the book s quality and we greatly appreciate their good nature over many months in the face of our editorial demands and time limits We are also grateful for using their texts ideas and critical remarks We would also like to thank Prof Dr Nilam N Ghuge Prof Dr D Ayub Khan Dawood Prof Dr Vilas A Pharande all reviewers and all authors for their help in consolidating the interdisciplinary of the book We are grateful to all the 18 institutions for their support It will not be possible to bring out this edition

Bionanotechnology in Cancer D. Sakthi Kumar,Aswathy Ravindran Girija,2022-10-27 The cancer research world is looking forward to bionanotechnology to find the best solutions for a complete cure from cancer which is not possible with the current established treatment methods The past decade of research on nano imaging and drug delivery in cancer has witnessed many interesting papers and reviews but there has not been a concise resource that discusses all fields related to nano cancer research in diagnosis and drug delivery This book fills this gap and presents the latest bionano research in cancer focusing on nanodiagnostics and nanotherapy The book is organized into two sections The section on nanodiagnostics focuses on topics such as diagnostic methods in cancer related therapy and use of radiolabeled nanoparticles magnetic nanoparticles acoustically reflective nanoparticles X ray computed tomography and optical nanoprobe for diagnosis The section on nanotherapy focuses on nanomaterials in chemotherapy magnetic nanoparticles for hyperthermia against cancer phototherapy nanotechnology mediated radiation therapy nanoparticle mediated small RNA deliveries for molecular therapies and theranostics The book will serve as the gateway to enter the beautiful and elegant field of bionanoscience which is considered the last hope for the fight against cancer and will be a highly useful resource for the students researchers teachers and curious readers working in this field or related fields
