The Qur'an Abdullah Saeed, 2008 There is much more to the Qur'an than the selective quotations favoured by Islamic fundamentalists. This book provides a student-friendly guide to the many ways in which the Qur'an can be read. Designed for both Muslims and Western non-Muslim students, it examines the Qur'an in Western scholarship as well as giving an overview of the rich interpretive traditions from the time of the Prophet Muhammad to the present day. This guide is a concise introduction to all aspects of the Qur'an: history, understanding and interpretation, providing coverage of both pre-modern

The Qur'an, 2008-04-17 Read Your Lord is the Most Bountiful one who taught by the pen who taught man what he did not know. The Qur'an, believed by Muslims to be the word of God, was revealed to the Prophet Muhammad 1400 years ago. It is the supreme authority in Islam and the living source of all Islamic teaching; it is a sacred text and a book of guidance that sets out the creed, rituals, ethics and laws of the Islamic religion. It has been one of the most influential books in the history of literature. Recognized as the greatest literary masterpiece in Arabic, it has nevertheless remained difficult to understand in its English translations. This new translation is written in a contemporary idiom that remains faithful to the original, making it easy to read while retaining its powers of eloquence. Archaisms and cryptic language are avoided and the Arabic meaning preserved by respecting the context of the discourse. The message of the Qur'an was directly addressed to all people, regardless of class, gender or age, and this translation is equally accessible to everyone. ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further

study and much more Ulum Al-Quran Ahmad von Denffer,1983 **Did Muhammad Exist?** Robert Spencer,2021-07-13 Is there any sound historical evidence that the prophet of Islam actually existed or is the entire story of Muhammad fable or fiction It is a question that few have thought or dared to ask Virtually everyone Muslim and non Muslim alike takes for granted that the prophet of Islam lived as a prophet as well as a political and military leader in seventh century Arabia But this widely accepted story begins to crumble on close examination In his blockbuster New York Times bestseller *The Truth about Muhammad* historian and Islam expert Robert Spencer revealed the often shocking contents of Islamic teachings about Muhammad Now in this newly revised and expanded version of *Did Muhammad Exist* he lays bare those teachings surprisingly shaky historical foundations This updated and enlarged version of this acclaimed book examines even more striking and compelling evidence that the story of Muhammad who for so long was assumed to have lived in the full light of history could be more myth and legend than historical fact Spencer meticulously examines historical records and archaeological findings pioneering new scholarship to reconstruct what we can know about Muhammad the Qur'an and the early days of Islam The evidence he presents challenges the most fundamental assumptions about Islam's origins
