Women's Work and Wages Christina Jonung, Inga Persson, 2002-09-11 At a time when women in industrialized countries have a stronger and more permanent presence in the labour market than ever before why does the gender pay gap differ so greatly between countries The contributors to this book use empirical studies of gender differences in family responsibilities and time allocation to demonstrate how such differences affect women s wages and analyse pay structures and wage mobility throughout Europe

Social Policy and Social Change Jillian Jimenez, Eileen Mayers Pasztor, Ruth M. Chambers, Cheryl Pearlman Fujii, 2014-02-26 The Second Edition of Social Policy and Social Change is a timely examination of the field unique in its inclusion of both a historical analysis of problems and policy and an exploration of how capitalism and the market economy have contributed to them The New Edition of this seminal text examines issues of discrimination health care housing income and child welfare and considers the policies that strive to improve them With a focus on how domestic social policies can be transformed to promote social justice for all groups Jimenez et al consider the impact of globalization in the United States while addressing developing concerns now emerging in the global village

Political Worlds of Women Mary Hawkesworth, 2018-04-19 Political Worlds of Women provides a comprehensive overview of women s political activism comparing formal and informal channels of power from official institutions of state to grassroots mobilizations and Internet campaigns Illuminating the politics of identity enmeshed in local national and global gender orders this book explores women s creation of new political spaces and innovative political strategies to secure full citizenship and equal access to political power Incorporating case studies from Africa Asia Europe and the Americas Mary Hawkesworth analyzes critical issues such as immigration and citizenship the politics of representation sexual regulation and gender mainstreaming in order to examine how women mobilize in this era of globalization Political Worlds of Women deepens understandings of national and global citizenship and presents the formidable challenges facing racial and gender justice in the contemporary world It is an essential resource for students and scholars of women s studies and gender politics

Handbook of the Sociology of Gender Barbara J. Risman, Carissa M. Froyum, William J. Scarborough, 2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender It presents the most important theories about gender and methods used to study gender as well as extensive coverage of the latest research on gender in the most important areas of social life including gendered

bodies sexuality carework paid labor social movements incarceration migration gendered violence and others Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework gender structure theory in order to position the specific contributions of each author chapter as part of a complex and multidimensional gender structure Through this organization of the handbook readers do not only gain tremendous insight from each chapter but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive While the specific focus of the handbook is on gender the chapters included in the volume also give significant attention to the interrelation of race class and other systems of stratification as they intersect and implicate gendered processes

Conceptualising Women's Working Lives Wendy Patton, 2013-04-20 Theoretical work on the career development of women has travelled a journey from critique to creation Early work responded to and criticised a literature that focused on theorising male roles in a workplace that was conceptualised as providing vertical career paths primarily for middle class males More recently theorists are creating new constructions and frameworks to enable a more holistic understanding of career applicable to both women and men These constructions include broadening the discussion from women's careers to women's working lives This is the fifth book in the Sense Publishers Career Development Series It features the vibrant work of contributors from around the world writing in the field of women's working lives It emphasises the need to explore theoretical connections and understandings in order to facilitate a more holistic and inclusive understanding of women's working lives The writers in the current volume acknowledge the changing roles of women in both public and private spheres Women's roles in paid work are changing both in their nature and type of engagement In addition with an ageing population women's roles in care work are increasingly being extended from child care to aged care This book provides a history of theorising about women's careers in addition to presenting a focus on current empirical and theoretical work which contributes to understandings of women's working lives It's contributions both map the current discourse and challenge future work to extend the boundaries of that discourse [Chinese Women - Living and Working](#) Anne McLaren, 2005-08-05

The Elgar Companion to Feminist Economics Janice Peterson, Margaret Lewis, 2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates

The Industrial Revolutions, Volume 1 J. Chartres, 1994-03-23 Britain in the sixteenth century appeared little different from its European neighbours and shared their renewed Malthusian pressures as population growth threatened the resource base of the economy Yet by the later seventeenth century Britain had broken the limits imposed by food production With the development of its trade transport and industry and the effective integration of its economy as a whole the country was becoming by the later eighteenth century more urban and industrial than its neighbours and was rapidly overtaking the Netherlands as the least rural country in Europe This volume of key readings sets British development in its broad context and in presenting the strong evidence of the extent and nature of its economic advance in the seventeenth and early

eighteenth centuries provides the critical background for the understanding of the late process of British industrialization

Gender and Families Scott Coltrane, Michele Adams, 2008-05-21 When we talk about family values like whether children need two parents we are also talking about gender values because a yes answer to this question might imply that only women with husbands should have children In the same way when we talk about gender issues such as whether men should be paid higher wages than women we are also talking about family issues because a yes answer suggests that husbands should be the family breadwinner In this updated second edition of *Gender and Families* Coltrane and Adams continue to demystify the complexities and connections between gender and family in contemporary culture with discussions of race ethnicity and social class

Global Symposium on Women in Fisheries, 2002 **Driven Apart** Annis May Timpson, 2001 From the outset of second wave feminism in Canada women have advanced analyses of employment inequality that embrace their labour in both the public and domestic spheres Through campaigns task forces and direct engagement with government departments activists have argued that only when the Canadian state takes account of their roles as care providers can women's full potential as worker citizens be realized

Divided Time Richard Layte, 2018-12-17 Published in 1999 Housework and child care are a major part of most people's lives The growth of part time work amongst women is just one example of the way our economy is structured to accommodate this fact Yet very little research has been done on this subject in Britain and what little has been done tends to be small scale and impressionistic This book examines how couples divide their time between domestic and paid work and the effect that tensions between the two can have It provides valuable evidence on how domestic work is organized and why when women are more likely to be employed than men have not increased their share of domestic work Representative evidence is combined with previous small scale research to show how private troubles are related to massive social and economic changes in British society Evidence of this sort has never been presented before in the British context

Women's Employment in Muslim Countries Niels Spierings, 2016-04-29 This book presents a new and nuanced exploration of the position of women in Muslim countries based on research involving more than 300 000 women in 28 Muslim countries It addresses topical debates on the role of Islam modernization globalization neocolonialism educational inequalities patriarchy household hierarchies and more
