The Struggle For Recognition Moral Grammar Of Social Conflicts:

The Struggle for Recognition Axel Honneth, 2018-03-12 In this book Axel Honneth re-examines arguments put forward by Hegel and claims that the struggle for recognition should be at the centre of social conflicts

The Struggle for Recognition Axel Honneth, 1996 In this pathbreaking study Axel Honneth argues that the struggle for recognition is and should be at the center of social conflicts Moving smoothly between moral philosophy and social theory Honneth offers insights into such issues as the social forms of recognition and nonrecognition the moral basis of interaction in human conflicts the relation between the recognition model and conceptions of modernity the normative basis of social theory and the possibility of mediating between Hegel and Kant

Struggles for recognition Oscar Pérez de la Fuente, 2021-02-26 Over the past decades an increasingly influential Political Philosophy approach has been seen to defend issues relating to cultural injustices The daily struggles arising from political agendas within different societies confirm this This perspective can be summarised using the Hegelian expression struggle for recognition and it is this expression that underpins the current position of minorities members and their defenders This means that misrecognition disrespect and humiliation form the base of cultural injustices and must be avoided Minorities are a fundamental part of democratic societies but their rights have not always been respected Immigrants are currently the object of xenophobic campaigns Some people the European minority face additional difficulties which results in them being key players in cases of indirect discrimination The distribution of territorial power and the situation of national minorities have been causes of different political problems Who am I Where do I belong are questions asking for identity Some people argue these should be relevant issues when applying the criminal law circle of moral incumbency to cover animals non humans arguing that they of life that involves their survival as a whole Those groups are faced with members and their defenders This publication is part of the New Challenges of Law project Action agreement UC3M CAM excellence of the University teaching staff V Regional Plan for scientific research and technological innovation

The Legacy of Pierre Bourdieu Simon Susen, Bryan S. Turner, 2013-12-01 These critical essays bring together prominent scholars in the social sciences to consider the diverse nature of the legacy of Pierre Bourdieu in contemporary social theory In offering a range of perspectives on the continuing relevance of Bourdieu's sociology the essays of this volume examine Bourdieu's relationship to both classical and contemporary social theory This collection constructs an intellectual bridge between French speaking and English speaking accounts of Bourdieu's work

Recognition, Conflict and the Problem of Global Ethical Community Shannon Brincat, 2017-10-02 Recognition is a fundamental aspect of all social interactions between individuals groups local communities and sovereign states Recognition refers to those sociological processes whereby two or more entities such as states groups such as ethnic or cultural communities or individuals interact with one another and come to understand themselves and the other as mutually free individuals as social agents whose identities interests and outlooks are equally bound together Without the foundational act of recognition relations can become unequal and antagonistic

leading to social pathologies denigration and even open conflict This volume brings together leading international scholars of recognition theory in world politics to discuss the potential for recognition to pacify relations between states groups and individuals and to develop recognition processes in the global community It examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community This book was published as a special issue of Global Discourse Migration, Recognition and Critical Theory Gottfried

Schweiger,2021-07-07 This book brings together philosophical social theoretical and empirically oriented contributions on the philosophical and socio theoretical debate on migration and integration using the instruments of recognition as a normative and social scientific category Furthermore the theoretical and practical implications of recognition theory are reflected through the case of migration Migration movements refugees and the associated tensions are phenomena that have become the focus of scientific political and public debate in recent years Migrants in particular refugees face many injustices and are especially vulnerable but the right wing political discourse presents them as threats to social order and stability This book shows what a critical theory of recognition can contribute to the debate The book is suitable for researchers in philosophy social theory and migration research A profound examination of how states and societies struggle to recognize migrants as fellow human beings in all their fullness The contributions are exceptional for combining astute philosophy and social theory with a discussion of actual politics and real lives Dr Hugo Slim Senior Research Fellow at the Blavatnik School of Government University of Oxford and formerly Head of Policy at the International Committee of the Red Cross This impressive and timely volume offers an innovative way of understanding the issues of migration and integration by using a critical theory of recognition Recognition theory has rich potential for effectively responding to the issues of autonomy identity integration and empowerment that are at the core of the current public debates on mass migration displacement and the refugee crisis By examining the normative and policy implications of recognition as they apply to migration the book offers a pathbreaking look at the human dimension of the debate Dr Helle Porsdam Professor of Law and Humanities and UNESCO Chair in Cultural Rights University of Copenhagen Passions, Politics and the Limits of Society Heikki

Haara,Koen Stapelbroek,Mikko Immanen,2020-08-24 The 1st part of the volume engages with the theme of inclusion and exclusion in the history of ideas from different perspectives The 2nd part of the volume discusses debates on natural law human nature and political economy in early modern Europe Its contributions explore the sorts of political and moral visions that were relevant in post Hobbesian moral philosophy and the development of economic thought Ethical Rationalism and the Law Patrick Capps,Shaun D Pattinson,2017-01-26 What role does reason play in determining what if anything is morally right What role does morality play in law Perhaps the most controversial answer to these fundamental questions is that reason supports a supreme principle of both morality and legality The contributors to this book cast a fresh critical eye over the coherence of modern approaches to ethical rationalism within law and reflect on the intellectual history on which it

builds The contributors then take the debate beyond the traditional concerns of legal theory into areas such as the relationship between morality and international law and the impact of ethically controversial medical innovations on legal understanding Citizenship, Diversity, and Pluralism Alan C. Cairns, John C. Courtney, Peter MacKinnon, 1999-12-01 In Citizenship Diversity and Pluralism leading scholars assess the transformation of these two dimensions of citizenship in increasingly diverse and plural modern societies both in Canada and internationally Subjects addressed include the changing ethnic demography of states social citizenship multiculturalism feminist perspectives on citizenship aboriginal nationalism identity politics and the internationalization of human rights Contributors include Heribert Adam Simon Fraser Keith Banting Queen's Anthony Birch emeritus Victoria John Borrows UBC Alan Cairns Walker Connor Trinity College John Erik Fossum LOS Senteret Norway Virginia Leary emeritus SUNY Denise R aume Toronto Lynn Smith justice BC Supreme Court Charles Taylor emeritus McGill and Jeremy Webber Sydney Australia **Paul Ricoeur's Philosophical Anthropology as**

Hermeneutics of Liberation Roger W.H. Savage, 2020-11-09 This book offers a unique account of the role imagination plays in advancing the course of freedom's actualization It draws on Paul Ricoeur's philosophical anthropology of the capable human being as the staging ground for an extended inquiry into the challenges of making freedom a reality within the history of humankind This book locates the abilities we exercise as capable human beings at the heart of a sustained analysis and reflection on the place of the idea of justice in a hermeneutics for which every expectation regarding rights liberties and opportunities must be a hope for humanity as a whole The vision of a reconciled humanity that for Ricoeur figures in a philosophy of the will provides an initial touchstone for a hermeneutics of liberation rooted in a philosophical anthropology for which the path tique of human misery is its non or pre philosophical source By setting the idea of the humanity in each of us against the backdrop of the necessity of preserving the tension between the space of our experiences and the horizons of our expectations the book identifies the ethical and political dimensions of the idea of justice's federating force with the imperative of respect Paul Ricoeur's Philosophical Anthropology as Hermeneutics of Liberation will be of interest to scholars and advanced students working in hermeneutics phenomenology ethics political theory and aesthetics
