Weapons, Culture and the Anthropology Museum Tom Crowley, Andrew Mills, 2018-04-18. Largely due to the tastes of nineteenth century Western collectors and curators, weaponry abounds in ethnographic museums. However, the relative absence of Asian, African, Native American and Oceanic arms and armour from contemporary gallery displays neither reflects this fact nor accords these important artefacts the attention they deserve. Weapons are often those objects in museums which most strongly record traumatic histories of colonial conquest around the world, showcase a society's most complex technologies and encode a wealth of historical information relating to violent conflict, cultural identities and indigenous masculinities. This volume brings together an international collective of museum professionals, indigenous cultural historians, anthropologists and material culture specialists to address the historical role of weapon collections in ethnographic museums and to reconsider the value of studying arms for the purposes of writing richer cultural histories. From Australia to the Amazon, from Uttar Pradesh to ancient Ulster, the essays in this book endeavour to return ethnographic weapons to the centre of material culture studies. In doing so, they offer a blueprint for a more sophisticated future treatment of world weaponry.

Antisemitism Steven Leonard Jacobs, 2020-06-29. With an overview essay, timeline, reference entries and annotated bibliography, this resource is a concise one-stop reference on antisemitism in today's society. Stretching back to biblical times, antisemitism is perhaps the world's oldest hatred of a group. It has manifested itself around the world, sometimes taking the form of superficially innocent jokes and at other times promoting such tragedies as the Holocaust. Far from disappearing, its continued existence in today's society is evidenced by vandalism of Jewish cemeteries and shootings at synagogues. This book explores the causes and consequences of contemporary antisemitism, placing this form of hatred in its historical, political and social contexts. An overview essay surveys the background and significance of antisemitism and provides historical context for discussions of contemporary topics. A timeline highlights key events related to antisemitism. Some 50 alphabetically arranged reference entries provide objective, fundamental information about people, events and other topics related to antisemitism. These entries cite works for further reading and provide cross-references to related topics. An annotated bibliography cites and evaluates some of the most important resources on antisemitism suitable for student research.
