The Structure Of Lutheranism Concordia Classics Series:

A History of Lutheranism Eric W. Gritsch, In a clear nontechnical way this noted Reformation historian tells the story of how the nascent reforming and confessional movement sparked and led by Martin Luther survived its first battles with religious and political authorities to become institutionalized in its religious practices and teachings Gritsch then traces the emergence of genuine consensus at the end of the sixteenth century followed by the age of Lutheran Orthodoxy the great Pietist reaction Lutheranism's growing diversification during the Industrial Revolution its North American expansion and its increasingly global and ecumenical ventures in the last century

Documents from the History of Lutheranism, 1517-1750 Eric Lund, A unique resource from the Reformation to Pietism This unique collection of excerpts from Lutheran historical and theological documents many translated here for the first time presents readers with a full picture of how the Lutheran movement developed in its thought and practice The volume proceeds chronologically from Luther's lifetime to the beginnings of the Enlightenment Each chapter begins with a summary essay and proceeds thematically Covering not only theology but also church life popular piety and influential historical events the more than 200 primary documents excerpted here show not only the evolution and development of Lutheran doctrine but also its devotional writings hymns liturgical texts letters and diaries satire political documents woodcuts and pamphlet literature Lund's judicious selection careful translation and helpful introductions acquaint readers with the turbulence and fervor of this revolutionary Christian movement its struggles for survival and consolidation its flowering in the age of orthodoxy and pietism always with an eye to how it affected and was experienced by ordinary people

These Are Written Peter Nafzger, 2013-05-31 Today there is an increasing awareness and availability of the sacred writings of the world's religions This raises important questions about the Christian Scriptures What is distinctive about these writings What role do they play in the Christian story What makes these particular texts holy The modern battle for the Bible with its narrow focus on proving or disproving biblical inerrancy has made it difficult to provide sufficient answers This work of constructive theology rethinks the concepts categories and assumptions that have dominated the modern approach to the Bible by returning to the biblical narrative and its focus on the cross It identifies the Scriptures as the written form of the living and active Word of God which was spoken by the prophets and apostles and became human in the person of Jesus Christ This conception of the Bible provides Christians in this postmodern world with a solid ground from which to address pressing questions about canon authority and interpretation of their Scriptures

The Structure of Lutheranism Werner Elert, 1962 **The Lutheran Witness**, 1926 *Truth-Telling and Other Ecclesial Practices of Resistance* Christine Helmer, 2021-05-25 In this book leading American Lutheran theologians inspired by the Scandinavian emphasis on theology as embodied practice ask how Christian communities might be mobilized for resistance against systemic injustices They argue that the challenges we confront today as citizens of the United States as a species in relation to all the other species on the planet and as members of the body of Christ require an imaginative

reconceptualization of the inherited tradition The driving force of each chapter is the commitment to truth telling in naming the church's complicity with social and political evils and to reorienting the church to the truth of grace that Christianity was created to communicate Contributors ask how ecclesial resources may be generatively repurposed for the church in the world today for church building grounded in Christ and for empowering the church's witness for justice The authors take up the theme of resistance in both theoretical and pragmatic terms on the one hand rethinking doctrine on the other reconceiving lived religion and pastoral care in light of the necessary urgencies of the time and bearing witness to the God whose truth includes both justice and hope

Luther's Theology of the Cross Dennis Ngien, 2018-06-11 Luther was fundamentally a preacher pastor a care taker of souls whose ingenuity lies in his usage of the biblical message as a source of pastoral encouragement This book seeks to capture the often overlooked pastoral side of the Reformer through an examination of his sermons on John's gospel The sermons on John show the intrinsic close and causal link between doctrine and consolation They are an exercise of his vocation as a pastor or more precisely as a theologian of the cross who seeks to inculcate the good news of justification by faith in his people leading them to experience it within the dialectic of law and gospel St John said Luther is the master in the article of justification Luther's theological method namely his theology of the cross permeates and governs the exposition of the text and all major themes of his theology Christology Trinity and soteriology appear in his exegesis of John
