Freak to Chic Dominic Janes, 2021-07-01 In this unique intervention in the study of queer culture Dominic Janes highlights that under the gaze of social conservatism gay life was hiding in plain sight Indeed he argues that the worlds of glamour fashion art and countercultural style provided rich opportunities for the construction of

queer spectacle in London Inspired by the legacies of Oscar Wilde interwar and later 20th century men such as Cecil Beaton expressed transgressive desires in forms inspired by those labelled freaks and thereby made major contributions to the histories of art design fashion sexuality and celebrity Janes reinterprets the origins of gay and queer cultures by charting the interactions between marginalized freaks and chic fashionistas He establishes a new framework for future analyses of other cities and media and of the roles of women and diverse identities The Toughest Half Elizabeth Stewart,2021-07-01

Lasting barely two centuries throughout the 1700s and 1800s the Industrial Revolution in Britain propelled the country into the role of the world s premier industrial nation Known as the midwife of the Industrial Revolution coal was literally the driving force behind this power Although referred to as the black diamond coal is not a thing of beauty yet like the true diamond it is representative of power and wealth Coal mining usually evokes images of tough men glistening with the sweat of underground toil We talk about man power and manual labour the industry has become synonymous with men Rarely if ever do women come to mind yet until an Act of 1942 banned them from working down the mines women worked alongside men their toil equally as gruelling in conditions jut as appalling Forbidden by Victorian prudery from working underground they were replaced at much greater expense to the mine owners by ponies The efforts of these women every bit as responsible as men for creating Britain s once greatest industry have rarely been acknowledged During the 1926 general strike and lockout Herbert Smith President of the Miners Federation of Great Britain reported that half the attendees at union meetings were women And these he insisted are always the toughest half This book tells of the history of coal and coal mining from mediaeval times to the demise of the industry in Britain in the 1990s and describes women s role in this history and how it affected their lives Through a combination of historical narrative fiction and biography the book gives a voice to these diminished others wives mothers and daughters whose persistence courage pride and sacrifice also contributed to the profits of wealthy mine owners Their stories are told through the prism of historical events the frightened little girl forced to work alone in subterranean darkness the poverty stricken young woman confronting an unwanted pregnancy those enduring the loss of sons and partners to a deadly occupation and women who through adversity took the opportunity to publicly reveal their collective strength Gentle and gruff warm hearted and implacable these battlers against grime beaters of carpets painters decorators and cooks activists and staunch supporters of strikes and lockouts underpinned the foundations of Britain s coal industry Woven through this book is the true story of the author s mother a miner s daughter Her life too was hard and closely entwined with coal mining to which she made over many years a considerable contribution not only to the industry but to the mining communities in which she worked Weeds Nina Edwards,2024-10-13 A wide ranging scientific and cultural history of weeds that reveals just how interesting and useful these seemingly annoying plants can be We spray them pluck them and bury them under mulch and we curse their resilience when they spring back into place To most of us weeds are a nuisance not worth the dirt they are growing in But the fact is weeds are a plant just like any other and it is only we

who designate them as a weed or not as a plant we will dote over or one we will tear out of the earth with abandon And as Nina Edwards shows in this history that designation is constantly changing Balancing popular history with botanical science she tells the story of the lowly but proud weed As Edwards shows the idea of the weed is a slippery one constantly changing under different needs fashions and contexts In a tightly controlled field of corn a scarlet poppy is a bright red intruder but in other parts of the world it is an important cultural symbol a potent and lucrative pharmaceutical source or simply a beautiful lakeside ornament What we consider a pest *Aristolochia Rotunda* or fat hen was in Neolithic times a staple crop its seeds an important source of nutrition Sprinkled with personal anecdotes and loads of useful information *Weeds* sketches history after history of the fashions and attitudes that have shaped our gardens showing us that it is just as important what we keep out of them as what we put in and that just because we despise one species does not mean that there haven't been others whose very lives have depended on it

Servants: A Downstairs History of Britain from the Nineteenth Century to Modern Times
Lucy Lethbridge, 2013-11-18 A compassionate and discerning exploration of the complex relationship between the server the served and the world they lived in *Servants* opens a window onto British society from the Edwardian period to the present
