Transdisciplinary, Engaged, Phenomenological Investigation of Dwelling and Landscape Language Andrew Turk, 2024-09-06 This book includes revised dissertation chapters from the author s second PhD which was awarded in 2020 by Murdoch University Australia It also includes three chapters summarising recent developments This was an innovative transdisciplinary research project using phenomenology as the over arching meta paradigm The investigation involved collaborations and literature reviews across numerous disciplines including philosophy geography ethnoecology sociology and cultural studies The book discusses three landscape language ethnophysiography case studies with Indigenous peoples in Australia and the USA It features a detailed discussion of transdisciplinarity and provides a comprehensive example of how this approach can be applied to complex dwelling relationships which people from different cultures have with specific topographic environments turning terrain into landscape It involves using phenomenology as a transdisciplinary meta paradigm and describes phenomenological methods for integrating physical and social sciences including an analysis of the worldviews of Indigenous peoples for example Manyjilyjarra Jukurrpa as Heideggerian topology Promised Lands David M. Wrobel, 2002 Whether seen as a land of opportunity or as paradise lost the American West took shape in the nation s imagination with the help of those who wrote about it but two groups who did much to shape that perception are often

overlooked today Promoters trying to lure settlers and investors to the West insisted that the frontier had already been tamed that the only frontiers remaining were those of opportunity Through posters pamphlets newspaper articles and other printed pieces these boosters literally imagined places into existence by depicting backwater areas as settled culturally developed regions where newcomers would find none of the hardships associated with frontier life Quick on their heels some of the West's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage Their selective memory focused on the savage wilderness they had tamed exaggerating the past every bit as much as promoters exaggerated the present Although they are generally seen today as unscrupulous charlatans and tellers of tall tales David Wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested By exploring the vast literature produced by these individuals from the end of the Civil War through the 1920s he clarifies the pivotal impact of their works on our vision of both the historic and mythic West In examining their role in forging both sense of place within the West and the nation's sense of the West as a place Wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a West in the national imagination Wrobel also sheds light on the often elitist sometimes racist legacies of both groups through their characterizations of Native Americans African Americans Mexican Americans and Asian Americans In the era Wrobel examines promoters painted the future of each western place as if it were already present while the old timers preserved the past as if it were still present But as he also demonstrates that West has not really changed much promoters still tout its promise while old timers still try to preserve their selective memories Even relatively recent western residents still tap into the region's mythic pioneer heritage as they form their attachments to place Promised Lands shows us that the West may well move into the twenty first century but our images of it are forever rooted in the nineteenth

Hunger for the Wild Michael L. Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries **The Kiva**, 1997 **Anthropology of Race** John Hartigan, 2013-09-09 What do we know about race today After years of debate and inquiry by anthropologists the question remains fraught with emotion and the answer remains complicated and uncertain Anthropology of Race confronts the challenge of formulating an effective rejoinder to new arguments and new data about race and attempts to address the intense desire to understand race and why it matters [The Greenwood Encyclopedia of World Folklore and Folklife: North and South America](#) William M. Clements, 2006 Designed for students and general readers this massive encyclopedia authoritatively reviews the folklore and folkways of cultures from around the world *Beyond Conquest* Amy E. Den Ouden, 2005 By focusing on the complex cultural and political facets of Native resistance to encroachment on reservation lands during the eighteenth century in southern New England Beyond Conquest reconceptualizes indigenous histories and

debates over Native land rights *Beyond Conquest* demonstrates how the current Euroamerican scrutiny and denial of local Indian identities is a practice with a long history in southern New England one linked to colonial notions of cultural and ultimately racial illegitimacy that emerged in the context of eighteenth century disputes regarding Native land rights

Line in the Sand Rachel C.
