The US Organ Procurement System A Prescription For Reform Evaluative Studies:

The U.S. Organ Procurement System David L. Kaserman, Andy Hubbard Barnett, 2002 The proposed system would also save thousands of lives at relatively low costs to both the transplant recipients and insurance companies **BOOK JACKET**

Saving the Mail R. Richard Geddes, Rick Geddes, 2003 A comprehensive overview of the U S Postal Service its organization and its performance since its creation by the 1970 Postal Reorganization Act **Water Capitalism** Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e g whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water *Medicare Hospital Subsidies* Sean Nicholson, 2002 This study reviews the rationales legislative history and financial incentives of hospital subsidies in the US After this detailed analysis the author suggests alternative designs for programmes that could curb their costs and ensure that they achieve the goals for which they were created *An Analytic Assessment of U.S. Drug Policy* David Boyum, Peter Reuter, 2005 This book concludes that America's drug policy should be reoriented in several ways to be more effective *Closing the Education Achievement Gap* Marvin H. Koster, Brent D. Mast, 2003 In this book the authors summarize the evolution of policy under Title I review previous evaluations of its effects on achievement and present new evidence based on national data on math and reading test scores to assess recent experience under the program The authors conclude that Title I has failed to produce any significant increase in test scores or to narrow achievement gaps between the scores of low and high income students and schools **Journal of Economic Literature** , 2002 **The Journal of Economic Perspectives** , 2007 This journal attempts to fill a gap between the general interest press and other academic economics journals Its articles relate to active lines of economics research economic analysis of public policy issues state of the art economic thinking and directions for future research It also aims to provide material for classroom use and to address issues relating to the economics profession **Book Review Index Cumulation** Dana Ferguson, 2005-09 Book Review
