Values in Youth Sport and Physical Education Jean Whitehead, Hamish Telfer, John Lambert, 2013-12-04 As sport has become more intense professional and commercialized so have the debates grown about what constitutes acceptable behaviour and fair play and how to encourage and develop good sporting behaviour particularly in children and young people This book explores the nature and function of values in youth sport and establishes a framework through which coaches teachers and researchers can develop an understanding of the decision making processes of young athletes and how they choose between playing fairly or cheating to win The traditional view of sport participation is that it has a beneficial effect on the social and moral development of children and young people and that it intrinsically promotes cultural values This book argues that the research evidence is more subtle and nuanced It examines the concept of values as central organizing constructs of human behaviour that determine our priorities guide our choices and transfer across situations and considers the value priorities and conflicts that are so useful in helping us to understand behaviour in sport The book argues that teachers and professionals working with children in sport are centrally important agents for value transmission and change and therefore need to develop a deeper understanding of how sport can be used to encourage pro social values and offers suggestions for developing a curriculum for teaching values through sport in differing social contexts Spanning some of the fundamental areas of sport practice and research including sport psychology sport pedagogy practice ethics and positive youth development through sport and including useful values and attitudes questionnaires and guidance on their use and

interpretation this book is important reading for any student researcher coach or teacher with an interest in youth sport or physical education

South Africa is My Best World Ina Joubert, 2010 In this work the author grapples with the nuanced concept of democratic citizenship education and how this affects the lives of young children The book is based on a case study of nine year old children of an inner city school in South Africa and their life experiences of a democratic South Africa as child citizens

Quality Education for Latinos and Latinas Rita Portales, Marco Portales, 2010-01-01 As educators and legislators across the country debate how to improve public schools the most vital factor often disappears from the equation the relationship between the teacher and the student According to veteran educators Rita and Marco Portales this relationship is the central issue in the education of students especially Latino a students who often face serious barriers to school success because of the legacy of racism insufficient English language skills and cultural differences with the educational establishment To break down these barriers and help Latino a students acquire a quality education the Portaleses focus attention on the teacher student relationship and offer a proven method that teachers can use to strengthen the print and oral skills of their students They begin by analyzing the reasons why schools too often fail to educate Latino a students using eloquent comments from young Latinos as and their parents to confirm how important the teacher student relationship is to the student s success Then they show how all educational stakeholders teachers administrators state education agencies legislators and parents can work together to facilitate the teacher student relationship and improve student education By demonstrating how teachers can improve students reading critical thinking writing and oral communication skills across the curriculum they argue that learning can be made more relevant for students keeping their interest levels high while preparing them for academically competitive colleges
