The Verlinden Way. Military Models and Dioramas, Vol II. ,1983 **MASTER MODELER SERIES VOL 2 , The**
Invention of the White Race, Volume 2 Theodore W. Allen,2012-11-20 On the steps of the Lincoln Memorial in 1963 Martin Luther King outlined a dream of an America where people would not be judged by the color of their skin That dream has yet to be realized but some three centuries ago it was a reality Back then neither social practice nor law recognized any special privileges in connection with being white But by the early decades of the eighteenth century that had all changed Racial oppression became the norm in the plantation colonies and African Americans suffered under its yoke for more than two hundred years In Volume II of *The Invention of the White Race* Theodore Allen explores the transformation that turned African bond laborers into slaves and segregated them from their fellow proletarians of European origin In response to labor unrest where solidarities were not determined by skin color the plantation bourgeoisie sought to construct a buffer of poor whites whose new racial identity would protect them from the enslavement visited upon African Americans This was the invention of the white race an act of cruel ingenuity that haunts America to this day Allen s acclaimed study has become indispensable in debates on the origins of racial oppression in America In this updated edition scholar Jeffrey B Perry provides a new introduction a select bibliography and a study guide *The Cambridge World History of Slavery: Volume 2, AD 500-AD 1420* Craig Perry,David Eltis,Stanley L. Engerman,David Richardson,2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in *The Cambridge World History of Slavery* covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people

The Shrine of Eileithyia Kanta Athanasia,Philip P. Betancourt,2024-12-15 This book presents the pottery and the clay and metal sculptures dedicated to the deity Eileithyia in her shrine at Inatos in southern Crete This is the second of three planned volumes on this assemblage of specialized gifts to a unique goddess It follows the Egyptiaka from the shrine that were published in volume I The clay vessels are discussed by periods from the Minoan to the Roman Imperial era Clay figurines are divided by classes Separate chapters describe models and other items of clay including boat models a ring shaped frieze of dancing warriors animal figurines and Roman lamps Highlights of this important assemblage of votive objects include about 200 Minoan miniature vessels and many small sculptures from the Late Geometric to Archaic periods

including seated pairs of female figurines in preparation for childbirth sexually embracing couples and a boat model with standing female figures on the gunwales accompanying a fetus traveling in the vessel **Sea Breezes** ,1984 **TANKER TECHNIQUES MAGAZINE 07** , The seventh issue of Tanker Techniques Magazine the best modelling magazine focused on painting and weathering techniques Urban warfare has left its print on the development of new tanks and armoured vehicles This issue of Tanker is dedicated to creating such an environment for your model We show how to make a street scene destroyed and bombed out buildings etc This time the focus is more on how to present your model in such environments rather than on the vehicles themselves Creating such scenes requires some planning and thinking but it s not as hard as it seems Already here the last issue of Tanker this time focus in conflicts in villages and cities In this issue we can feel the battle and the sensations of decadence in cities destroyed by the war We will see how to recreate these environments buildings and vehicles **Emporio Kai Stauroforia** Elisavet A. Zachariadou,1983 **The Overthrow of Colonial Slavery** Robin Blackburn,2011-04-18 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn s history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguano to Toussaint L Ouverture from the black Jacobins to the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean **Air Pictorial** ,1996 From Slavery to Feudalism in South-Western Europe Pierre Bonnassie,1991 *Free and Unfree Labour* Tom Brass,Marcel van der Linden,1997 The text comprises 24 essays which examine various forms of unfree labour and its absence or presence in various parts of the world *Byzantinische Forschungen* ,1988 *The Development of the Plantations to 1750* Elsa V.
