Cornelius, Sherry Ginn, 2020-03-19 The end of the world may be upon us but it certainly is taking its sweet time playing out The walkers on *The Walking Dead* have been walking for nearly a decade There are now dozens of apocalyptic television shows and we use the end times to describe everything from domestic politics and international conflict to the weather and our views of the future This collection of new essays asks what it means to live in a world inundated with representations of the apocalypse Focusing on such series as *The Walking Dead* *The Strain* *Battlestar Galactica* *Doomsday Preppers* *Westworld* *The Handmaid s Tale* they explore how the serialization of the end of the world allows for a closer examination of the disintegration of humanity while it happens Do these shows prepare us for what is to come Do they spur us to action Might they even be causing the apocalypse Robert Kirkman Adam Woog, 2015-04-21 *The Walking Dead* has become one of the most popular franchises in modern history The cable adaption of the comic book series has the highest viewership of any cable series in history according to Nielsen This informative biography discusses the life and work of Robert Kirkman the originator of the *Walking Dead* comic books Chapters cover Kirkman s relationship with the Zombie genre his work with Marvel and the development of the *Walking Dead* comic books and TV series The Architecture of Survival Erik Trump, Jake Parcell, 2023-09-05 *The Architecture of Survival Setting and Politics in Apocalypse Films* offers a compelling exploration of how popular films and TV series from the past two decades use architectural spaces to comment on socio political issues The authors harness varied theoretical perspectives to demonstrate how through set design these works suggest that certain kinds of architecture support human development community and freedom while other kinds separate us from our fellow humans and make democratic politics impossible The clean lines of modernist design serve in films such as *Contagion* and *Ex Machina* as a metaphor for the sanitized sterile politics that drive disaster In *The Walking Dead* apocalypse survivors favor traditional architectural styles when rebuilding society a choice that symbolically affirms their democratic principles The massive walls and super gentrification as seen in *Elysium* and *Army of the Dead* divide humanity with those on one side wielding illegitimate power Empty streetscapes intensify loneliness alienation and the destruction of civil norms Smart cities offering a blend of high tech surveillance and big data erode social capital and community in *Her* and *Transcendence* The book concludes with a somewhat hopeful glimpse into architecture s potential to mitigate the catastrophic adverse effects of climate change as seen

in films like Zootopia **Thief Of Thieves Vol. 3** Robert Kirkman, Andy Diggle, 2014-02-26 Conrad Paulson lives a secret double life as master thief Redmond. There is nothing he can't steal, nothing he can't have except for the life he left behind. Now it's go time for his Venice heist and THIEF OF THIEVES most EXPLOSIVE story arc yet. Collects THIEF OF THIEVES 14-19 *Books of the Dead* Tim Länzendörfer, 2018-08-08 The zombie has cropped up in many forms in film, in television and as a cultural phenomenon in zombie walks and zombie awareness months, but few books have looked at what the zombie means in fiction. Tim Länzendörfer fills this gap by looking at a number of zombie novels, short stories and comics and probing what the zombie represents in contemporary literature. Länzendörfer brings together the most recent critical discussion of zombies and applies it to a selection of key texts including Max Brooks's *World War Z*, Colson Whitehead's *Zone One*, Junot Díaz's short story *Monstro*, Robert Kirkman's comic series *The Walking Dead* and Seth Grahame-Smith's *Pride and Prejudice and Zombies*. Within the context of broader literary culture, Länzendörfer makes the case for reading these texts with care and openness in their own right. Länzendörfer contends that what zombies do is less important than what becomes possible when they are around. Indeed, they seem less interesting as metaphors for the various ways the world could end than they do as vehicles for how the world might exist in a different and often better form *Apocalyptic Chic* Barbara Brodman, James E. Doan, 2017-10-10 This book deals with legends and images of the apocalypse and post-apocalypse in film and graphic arts, literature and lore from early to modern times and from peoples and cultures around the world. It reflects an increasingly popular leitmotif in literature and visual arts of the 21st century: humanity's fear of extinction and its quest for survival in revenant, supernatural or living human form. It is the logical continuation of a series of collected essays examining the origins and evolution of myths and legends of the supernatural in Western and non-Western tradition and popular culture. The first two volumes of the series, *The Universal Vampire: Origins and Evolution of a Legend* (Fairleigh Dickinson University Press, 2013) and *Images of the Modern Vampire: The Hip and the Atavistic* (Fairleigh Dickinson University Press, 2013) focused on the vampire legend. The third, *The Supernatural Revamped: From Timeworn Legends to Twenty-First Century Chic* (2016) focused on a range of supernatural beings in literature, film and other forms of popular culture.
