The Wellbeing Of Nations Meaning Motive And Measurement:

The Wellbeing of Nations Paul Allin, David J. Hand, 2014-10-06 What is national wellbeing and what is progress Why measure these definitions Why are measures beyond economic performance needed and how will they be used How do we measure national wellbeing turn the definitions into observable quantities Where are we now and where to next These questions are asked and answered in this much needed timely book The Wellbeing of Nations provides an accessible and comprehensive overview of the measurement of national well being examining whether national wellbeing is more than the sum of the wellbeing of everyone in the country and identifying and reviewing requirements for new measures It begins with definitions describes how to operationalize those definitions and takes a critical look at the uses to which such measures are to be put The authors examine initiatives from around the world using the UK measuring national wellbeing programme as a case study throughout the book along with case studies drawn from other countries as well as discussion of the position in some countries not yet drawn into the national wellbeing scene

The Politics of Wellbeing Ian Bache, Karen Scott, 2018-07-04 This volume is the first collection in the field of wellbeing studies that places politics centre stage Through a combination of intellectual inquiry empirically grounded research and investigation across different settings this book aims to provide fresh insights and develop new lenses through which to understand the rise and significance of the wellbeing agenda Divided into three parts it considers how to define wellbeing for public policy the prospects for wellbeing as a force for political change and the link between policy agendas and the everyday lives of people The book explores the key political issues of power democracy and the legitimacy of wellbeing evidence in a range of settings international national and subnational substate The volume will appeal to wellbeing and politics scholars as well as students and general readers with an interest in these new political agendas

Cummins,2018-05-17 The scientific study of wellbeing involves both objective and subjective variables While objective wellbeing can be simply measured as tangible aspects of the living environment measuring subjective wellbeing involves quantifying self reported feelings Although reliable and valid measures can be achieved in a cross cultural context differences in language and culture present formidable challenges to measurement comparability This Element begins by describing the behaviour of subjective wellbeing in single cultures using the theory of homeostasis Robert A Cummins then discusses cross cultural differences in

subjective wellbeing with a focus on measurement invariance as a means of ensuring the validity of comparative results Cummins proposes that the major barrier to creating such comparability of measurement is a pervasive response bias that differs between cultures He concludes that current instruments are inadequate to provide valid cross cultural measures of subjective wellbeing and that suitable measures may be created as short forms of current scales Global Handbook of Quality of Life Wolfgang Glatzer, Laura Camfield, Valerie Møller, Mariano Rojas, 2015-01-22 This handbook provides a comprehensive historical account of the field of Quality of Life It brings together theoretical insights and empirical findings and presents the main items of global quality of life and wellbeing research Worldwide in its scope of topics the handbook examines discussions of demographic and health development the spread of democracy global economic accounting multi item measurement of perceived satisfaction and expert assessed quality of life and the well being of children women and poor people It looks at well being in specific regions including North and Sub Saharan Africa Asia South America and Eastern and Western Europe In addition to contributions by leading and younger authors the handbook includes contributions from International Organizations about their own work with respect to social reporting
