The Walkable City Urban Studies:

Walkable City Jeff Speck, 2013-11-12 Presents a plan for American cities that focuses on making downtowns walkable and less attractive to drivers through smart growth and sustainable design

The Walkable City Jennie Middleton, 2021-08-18 This book explores everyday walking in contemporary urban life It brings together important theoretical and empirical insights to understand how the walkability of urban spaces can be imagined planned for and experienced The book focuses on the everyday experiences of the urban walker the bodily experiences of walking and different walking research methods It goes beyond the conventional focus on walkable places by delving into the ways in which urban space is consumed and produced through different ways of walking Drawing on fieldwork in the UK and international secondary sources the book examines how walking is socially and materially co produced focusing on pedestrian practices infrastructures and the social nature of walking Chapters in the book offer key explorations of the cultural and social inclusions and exclusions of navigating the city on foot The book considers transport planning and policy promoting pedestrian movement pedestrian infrastructures the politics of walking and social interactions of urban pedestrians The book offers vital analyses of how different but overlapping dimensions of walking and their relationship with urban space are often overlooked and the importance of centring the lived experiences of walking in understandings of pedestrian practices This book provides a timely contribution to the field of mobilities due to a growing interest in urban walking It will be of interest to students and scholars of urban studies human geography sociology and public health

Walkable City (Tenth Anniversary Edition) Jeff Speck, 2022-11-15 Timely and important a delightful insightful irreverent work Should be required reading The Christian Science Monitor Named a best book of the year by Planetizen and the American Society of Landscape Architects Jeff Speck has dedicated his career to determining what makes cities thrive And he has boiled it down to one key factor walkability Making downtown into a walkable viable community is the essential fix for the typical American city it is eminently achievable and its benefits are manifold Walkable City bursting with sharp observations and key insights into how urban change happens lays out a practical necessary and inspiring vision for how to make American cities the best they can be

Walkable Cities Carlos J. L. Balsas, 2019-10-01 Examines how cities of various sizes on both sides of the Atlantic Ocean are making walkability improvements a part of their overall urban revitalization strategy Walkable precincts have become an important component of urban revitalization on both sides of the Atlantic In Walkable Cities Carlos J L Balsas examines a range of city scales and geographic settings on three continents focusing on the Iberian Peninsula Spain and Portugal Latin America Brazil and Mexico and the United States Phoenix and New York City He explains how this pedestrianization of Main Street approach to central locations downtowns and midtowns has contributed to strengthening various urban functions such as urban vitality pedestrian and bicyclist safety tourism and more However it has also put pressure on less affluent peripheral and fragile areas due to higher levels of consumption and

waste generation Balsas calls attention to the need to base urban revitalization interventions on more spatially and socially just interventions coupled with sustainable consumption practices that do not necessarily entail high growth levels but instead aim to improve the quality of city life The notion of commercial urbanism is both novel and engaging since much of the vibrancy of cities comes from commerce consumption and entertainment The idea itself is a major contribution of the book Tridib Kumar Banerjee University of Southern California Walking in the European City Timothy Shortell,Evrick Brown,2016-02-24 Sociologists have long noted that dynamism is an essential part of the urban way of life However walking as a significant social activity and crucial research method in spite of its ubiquity as part of urban life has often been overlooked This volume considers walking in the city from a variety of perspectives in a variety of places and with a variety of methods to engage with the question of how walking can contribute to the sociological imagination and reveal sociological knowledge Bringing together new research on sites across Europe Walking in the European City addresses the nature of everyday mobility in contemporary urban settings shedding light not only on the ways in which walking relates to other social institutions and practices but also as a method for studying urban life With attention to intersections of race and ethnicity gender and class as well as the manner in which processes of gentrification transform urban space this book examines questions of access to public places exploring the ways in which urban dwellers use of and relation to neighbourhood spaces are shaped by inequalities of status and power As such it will appeal to scholars of sociology geography and anthropology with interests in urban studies mobility and research methods *Urban Planning for the City of the Future* Susan Flynn,Richard Hayes,2023-08-22 Aided by an ambitious multifaceted lens this book builds a compelling comprehensive case study of a small modern European city that can serve as a laboratory for future urban planning elsewhere *Nordic Experiences of Sustainable Planning* Sigríður Kristjánsdóttir,2017-08-23 For well over a decade there has been a drive towards sustainability in planning throughout the Nordic countries But are these countries experiencing a paradigm shift in planning research and practice with regards to sustainability Or is the sustainability discourse leading them into an impasse in planning This book includes overviews of the planning systems in the five Nordic countries drawing attention to their increasing focus on sustainability A leading team of scholars from the fields of planning urban design architecture landscape economics real estate and tourism explore how the notion of sustainability has shaped planning research in the Nordic countries Case studies from Iceland Sweden Finland Norway and Denmark shed light on what lessons can be learned and some possible future developments By focusing on the actual settings and practices of local and regional planning activities it enables a discussion on the current state of planning for a more sustainable future This book will be valuable reading for students and academics interested in planning policy environmental policy architecture and urban design work

Research Anthology on Digital Transformation, Organizational Change, and the Impact of Remote Work

Management Association, Information Resources,2020-10-30 As the use of remote work has recently skyrocketed digital

transformation within the workplace has gone under a microscope and it has become abundantly clear that the incorporation of new technologies in the workplace is the future of business. These technologies keep businesses up to date with their capabilities to perform remote work and make processes more efficient and effective than ever before. In understanding digital transformation in the workplace, there needs to be advanced research on technology, organizational change, and the impacts of remote work on the business, the employees, and day to day work practices. This advancement to a digital work culture and remote work is rapidly undergoing major advancements, and research is needed to keep up with both the positives and negatives to this transformation. The Research Anthology on Digital Transformation, Organizational Change, and the Impact of Remote Work contains hand selected previously published research that explores the impacts of remote work on business workplaces while also focusing on digital transformation for improving the efficiency of work. While highlighting work technologies, digital practices, business management, organizational change, and the effects of remote work on employees, this book is an all encompassing research work intended for managers, business owners, IT specialists, executives, practitioners, stakeholders, researchers, academicians, and students interested in how digital transformation and remote work is affecting workplaces.

Smart Cities for Sustainable Development Ram Kumar Mishra, Ch Lakshmi Kumari, Sandeep Chachra, P. S. Janaki Krishna, Anupama Dubey, R. B. Singh, 2022-05-25. This book reviews the structure, applications, technologies, governance, environmental sustainability, smart communities, gender space, and other issues related to smart cities. The book is divided into four parts. The first one entails the conceptual background, growth, and development. The second part presents diverse issues on smart cities in terms of environmental sustainability, the role of the community, and gender space, among others. The third part revolves around economic and technological issues, and the fourth is a compilation of case studies in connection with smart cities. This collection of diverse issues from different locations presents a holistic view of smart cities contributed by authors who have undertaken research projects and implemented their own unique perspectives and methods. A variety of innovative concepts such as digital governance, polycentric structures, geodata repositories, geoweb services, and advanced geospatial technologies in smart city planning, urban microclimatic parameters, and urban heat islands provide invaluable knowledge for researchers and practitioners in these fields.

CORP 2012 - Proceedings/Tagungsband Manfred Schrenk, Peter Zeile, Vasily V. Popovich, Pietro Elisei, 2012. **RE MIXING THE CITY** Towards Sustainability and Resilience. There is nothing permanent except change. Heraclitus. Cities worldwide are facing rapid social, economic, environmental, technological, and cultural changes such as rapid urbanisation, aging of society, security issues, housing emergency, new solutions on mobility, integration of immigrants, food and water shortage, etc. Especially in times of economic crisis and demographic changes in cities, it is necessary to think about how to best handle what we have, and therefore **RE MIXING THE CITY** is a challenge to manage and recombine the elements which make our modern cities in order to better respond to change.
