Buddhism and Whiteness Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct but we think complementary traditions the philosophical engagement with race whiteness and Buddhist philosophy in order to explore the ways in which these traditions can inform correct and improve each other This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in understanding race and whiteness with the help of Buddhist philosophy and in understanding Buddhist philosophy with the help of philosophy of race and theorizations of whiteness We expand upon a small but growing body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U S culture Buddhist philosophy has much to contribute to furthering our understanding of whiteness and racial identity the mechanisms that create and maintain white supremacy and the possibility of dismantling white supremacy We are interested both in the possible insights that Buddhist metaphysical epistemological and ethical analyses can bring to understanding race and whiteness as well as the potential limitations of such Buddhist inspired approaches In their chapters contributors draw on Buddhist philosophical and contemplative traditions to offer fresh insightful and powerful perspectives on issues regarding racial identity and whiteness including such themes as cultural appropriation mechanisms of racial injustice and racial justice phenomenology of racial oppression epistemologies of racial ignorance liberatory practices with regard to racism Womanism and the intersections of gender based raced based and sexuality based oppressions Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions These include various Asian traditions including Theravada Mahayana Tantra and Zen as well as comparatively new American Buddhist traditions

Sanctuary Zenju Earthlyn Manuel, 2018-04-03 A singular work of poetic prose exploring otherness and belonging and what it means to be truly at home Sanctuary A Meditation on Home Homelessness and Belonging examines the interface between inner and outer sanctuary and the ways they affect one another Sanctuary is the home we can return to when our lives are under threat where we can face what s difficult to love and have a place where we can truly say I am home and spiritual teachers often emphasize sanctuary s inner dimensions that our true home is within Homelessness in turn can be viewed as a forced experience or one in which there is a spiritual void in being or feeling home Drawing from her life as a Zen Buddhist priest whose ancestors labored as slaves in Louisiana Zenju Earthlyn Manuel explores the tension between oppression based on race religion ability class orientation gender and other ghosts of slavery and finding home within our own hearts Through intimate personal stories and deep reflection Manuel helps us see the moment when the unacknowledged surfaces as the time we have been practicing for the epiphany when we can investigate the true source what has been troubling us This insightful book about home and homelessness sanctuary and refuge offers inspiration encouragement and a clear eyed view of cultivating a spiritual path in challenging times

The Deepest Peace

Zenju Earthlyn Manuel,2020-12-01 This beautiful glimpse into the mind of a modern Zen priest shows us how we can cultivate and experience peace through silence stillness and practice A balm for our troubled hearts and minds soulful warm and welcoming and at times heartbreaking Lion s Roar While there is suffering in the world and in each of us there is also the possibility and the experience of peace As Zenju Earthlyn Manuel a Zen priest and disciple of Thich Nhat Hanh who has written at length on race gender sexual orientation and homelessness writes in the introduction I have testified many times of my suffering Before I die I must speak of peace The Deepest Peace is a poetic lyrical ode to the ways contemplative practice illuminates daily life It is at once a window into Zenju s personal practice and an invitation to begin our own

Inventing the American Primitive Helen Carr,1996 A radical reading of American Literary history which analyses how responses to the existence of Native American traditions have shaped ideas of American identity and literature Gender Nonconformity, Race, and Sexuality Toni P. Lester,2002 How are culturally constructed stereotypes about appropriate sex based behavior formed If a person who is biologically female behaves in a stereotypically masculine manner what are the social political and cultural forces that may police her behavior And how will she manage her gendered image in response to that policing Finally how do race ethnicity or sexuality inform the way that sex based roles are constructed policed or managed The chapters in this book address such questions from social science perspectives and then examine personal stories of reinvention and transformation including discussions of the lives of dancers Isadora Duncan and Bill T Jones playwright Lorraine Hansberry and surrealist artist Claude Cahun Writers from fields as diverse as history art psychology law literature sociology and the activist community look at gender nonconformity from conceptual theoretical and empirical perspectives They emphasize that gender nonconformists can be gay lesbian bisexual transgender or anyone else who does not fit a model of Caucasian heterosexual behavior characterized by binary masculine and feminine roles After Identity Georgia Warnke,2008-01-10 Social and political theorists have traced in detail how individuals come to possess gender sex and racial identities This book examines the nature of these identities Georgia Warnke argues that identities in general are interpretations and as such have more in common with textual understanding than we commonly acknowledge A racial sexed or gendered understanding of who we and others are is neither exhaustive of the meanings we can be said to have nor uniquely correct We are neither always or only black or white men or women or males or females Rather all identities have a restricted scope and can lead to injustices and contradictions when they are employed beyond that scope In concluding her argument Warnke considers the legal and policy implications that follow for affirmative action childbearing leave the position of gays in the military and marriage between same sex partners
