Wilson,1994-08 **Sports Afield's Deer Hunter's Almanac** Sid Evans,Sports Afield,1996 From the Introduction There is not a successful deer hunter in the world who has not come up with his own peculiar methods some of them secret some not for beating the long odds of killing a deer The Ojibwa Indians of the Great Lakes figured out they could attract deer by smoking wild aster in a pipe the smell of which was like the scent of a deer s hooves Other tribes such as the Choctaws and Cherokees in the Southeast would carry skinned out deer heads on their belts which they could wear over their heads whenever they needed to make a stalk this is no longer an advisable or legal technique They used decoys and calls and they knew that banging a pair of antlers together could summon a buck during the rut In this book we have tried to compile some of the best information and most interesting pieces written about deer in Sports Afield since the magazine was founded in 1887 There were not as many deer to hunt back then but over the last quarter century deer populations have boomed in nearly every state but Alaska and Hawaii and so have the articles written about them Many of these pieces originally appeared in the Sports Afield Almanac which was introduced by Editor Ted Kesting in 1972 others appeared as departments or short features All told more than 250 deer hunters contributed making this we hope a very unique look at what is now America s favorite game animal Some of the contributors like Dwight Schuh and Peter Fiduccia Tom McIntyre and Ted Kerasote are what we would call pros They have hunted studied and written about deer all their lives Others are just guys who wanted to share a couple of their best deer hunting secrets Do not be surprised if you turn up some contradictory views There s more than one way to shoot skin and cook a deer but it may be that the best way of all is the one you have to figure out on your own This is the finest book on whitetail hunting that I have seen Larry Myhre Sioux City Journal **Complete Guide to Hunting** Gary Lewis,2008-07-07 Make the most of your time in the field Whether heading into the field after a favorite game animal or pursuing a species for the first time hunters want as much information as possible to make the hunt successful This book provides tips and techniques for hunting more than 28 species of big game small game upland birds turkeys and waterfowl More than 300 photos and illustrations discuss choosing a bow or firearm planning a hunt scouting hunting strategies such as still hunting stalking using hunting dogs driving flushing and more *Advanced Whitetail Hunting* Ron Spomer,Gary Clancy,1996-06 The diligent hunter who finds his buck and learns its territory and habits before hunting season opens has a huge advantage over other hunters This helpful resource is filled with detailed illustrations

charts maps and hundreds of color photos to show you how to outwit wary bucks The main difference between this book and others is that Advanced Whitetail Hunting contains secrets from some of North America's most successful trophy buck hunters If you're tired of average deer and want to set your sights on a record book buck this book is for you Learn how to eliminate human odors that give you away Find out what special areas you can hunt that most casual hunters will avoid leaving the big deer for you See how to lure a mature deer with rattling calling and decoying The photos and illustrations show you the techniques that will take your hunting to the next level
