Votes and Violence Steven Wilkinson, 2006-11-23 Why do ethnic riots break out when and where they do Why do some governments try to prevent ethnic riots while others do nothing or even participate in the violence In this book Steven I Wilkinson uses collected data on Hindu Muslim riots socio economic factors and competitive politics in India to test his theory that riots are fomented in order to win elections and that governments decide whether to stop them or not based on the likely electoral cost of doing so He finds that electoral factors account for most of the state level variation in Hindu Muslim riots explaining for example why riots took place in Gujarat in 2002 but not in many other states where militants tried to foment violence The general electoral theory he develops for India is extended to Ireland Malaysia and Romania as Wilkinson shows that similar political factors motivate ethnic violence in many different countries **Votes And Violence** Steven I. Abstract In democracies governments will protect minorities when they rely on them directly for electoral support or if party politics in a state is so competitive that there is a high probability that they will need to rely on minority votes or minority supported parties in the future. Wilkinson 2006: 118. Auf diese Weise fasst Steven Wilkinson die These zusammen, die er in Kapitel fünf seines Buches *Votes and Violence* anhand des Konflikts zwischen Hindus und Muslimen in Indien untersucht. Mit dieser Hausarbeit werde ich Wilkinsons These zum Verhalten von Regierungen bei ethnischen Unruhen auf ihre Generalisierbarkeit hin überprüfen. Für die empirische Umsetzung der Untersuchung kommt nur ein qualitativer Ansatz in Frage. Zunächst sind etwaige Fälle daraufhin zu untersuchen, ob sie überhaupt für eine Untersuchung geeignet sind. Demokratielevel, Gewalt gegen Minderheiten etc. um dann in einem zweiten Schritt die Gegebenheit der relativ restriktiv formulierten Bedingungen Wilkinsons für den Schutz von Minderheiten zu untersuchen und schließlich in einem dritten Schritt das nötige Detailwissen für eine Bewertung der Fälle zu sammeln. Anhand von Südafrika den Ausschreitungen gegen Migranten 2008 und Nigeria den Unruhen zwischen Christen und Muslimen in Plateau State 2001 und 2008 werde ich die Stärken und Schwächen des Ansatzes darzulegen versuchen und auch die Grenzen seiner Erklärungskraft aufzeigen. Zu diesem Zweck widme ich mich im ersten Abschnitt dieser Arbeit der Theorie Wilkinsons und setze diese in Bezug zu den Arbeiten von Horowitz. Im empirischen Abschnitt analysiere ich die Fälle Südafrika und Nigeria aus der electoral incentives Perspektive und fasse im Fazit die gewonnenen Erkenntnisse noch einmal zusammen.

Voices, Votes and Violence Gabrielle Simon Bardall, 2016. *Voices, Votes and Violence: Essays on Select Dynamics of Electoral Authoritarian Regimes* concerns the expression of commonly excluded voices under electoral authoritarian (EA) regimes from the challenges of institutionalized processes specifically elections and voting to rationalizations for extra-institutional behaviors notably political violence. The essays are presented in two parts. The first two essays in Part I concern

frameworks for studying incumbent and opposition behaviors in semi authoritarian states The three essays in Part II examine a specific sub field of EA regime dynamics political participation of women Each chapter provides findings as summarized below Chapter 1 explores methodological challenges in studying semi authoritarian regimes such as EA by critically engaging with a leading framework of analysis in the field An independent replication of Levitsky and Way's 2010 classification model of competitive authoritarianism CA reveals coding discrepancies in the authors case selection which impact the broader theory of CA regimes and have methodological implications for the comparative study of hybrid regimes in general Chapter 2 examines opposition party behavior under EA regimes I hypothesize that EA oppositions electoral and regime objectives dual games align under conditions where there is relative certainty of outcomes but diverge where either regime or electoral uncertainty is greater resulting in four identifiable behavior types Testing the theory on 55 elections in 29 sub Saharan African states I demonstrate that the four behavior types are functions of the degree of state repression and the level of organizational capacity of the opposition Chapter 3 reveals and defines the gendered nature of electoral violence a common feature of EA regimes An original database of over 2000 incidents of election violence in six countries as well as fieldwork from over fifty countries reveal the existence of significant gender differentiation in the manifestation of election violence as well as the presence of a previously unrecognized phenomenon gender based election violence GBEV The chapter introduces definitions a taxonomy and typology of both forms of violence Chapter 4 delves deeper into the topic by examining the complex relationship between information and communication technologies and gendered election violence The notions of gender differentiated and gender motivated violence are extended to political violence in this chapter Information and communication technologies are found to both facilitate gendered forms of political violence as well as empower resistance and violence mitigation The final chapter provides the solution to a longstanding puzzle of political exclusion in EA and other regimes by demonstrating the complementarity of specific forms of temporary special measures TSMs in electoral systems based on single member districts SMDs The chapter presents a five part classification of TSM options in SMDs including an original interpretation of Alternate Thresholds Analyzing the five TSM types through country case studies Chapter 5 illustrated that discrepancies in the adoption of quotas between electoral systems are the result a knowledge gap rather than intrinsic traits of electoral systems as previously assumed
