The Balancing act of Innovation Philippe Silberzahn, Walter Van Dyck, 2011-01-18 Een absolute aanrader voor moderne bedrijven die vooruit willen Innoveren kan op duizend en n manieren De kunst is om op zoek te gaan naar uw eigen stijl en uw eigen road to innovation die de balans houdt tussen creativiteit en discipline De verschillende niveaus van innovatie op een rijtje het team en de mensen projecten business units ondernemingen en ecosystemen Het geheel is een overzicht van een reeks inspirerende innovatiestrategieën maar de hoofdstukken kunnen ook perfect apart gelezen worden Innovations are everywhere and they matter They matter because they change our lives for better or worse and because they are the source of long term growth But is innovation always the best policy Is now necessarily the best time to innovate And how exactly should we go about it This book seeks to provide the answers to some of these questions It is not a detailed manual for innovation since experience suggests that there is no such thing as a simple set of successful innovation recipes which work at all times and in all places For this reason the book written for practising managers and students of company level innovation uses a case based methodology from which readers can learn practical lessons At the same time it provides examples of creative approaches followed by less publicly well known high impact SME innovators or by leading well established firms applying less known high impact innovation strategies It shows how innovators as diverse as Bongo GreenPan Studio 100 Cronos Belgacom Mobile Arteconomy QOD Sigasi VIB Janssen Pharmaceutica and Alcatel Lucent companies which range from big to small high tech to low tech new to old product based to service based well known to less well known have succeeded in completing their innovation journey The cases discuss topics as varied as creativity growth product leadership business model change as well as finance and commercialisation There are many possible roads to innovation Successful innovation means defining your own road The purpose of this book is to help you plan your journey along your own particular route www.thebalancingactofinnovation.com

Management, Innovation and Entrepreneurship in Challenging Global Times Gabriela I. Prostean, Juan J. Lavios, Laura Brancu, Faruk Şahin, 2024-04-23 Management Innovation and Entrepreneurship in Challenging Global Times begins to address the need for a response to unprecedented global situations that require large scale cooperation as well as individual organizational and institutional changes Embodying the proceedings of the 16th International Symposium in Management held in Timisoara Romania in October 2021 this book gathers interdisciplinary and multidisciplinary studies which highlight less high profile research concepts in management and industrial engineering The contributions discuss details of state of the art business process management techniques that integrate innovative methods with technologies that promote organizational agility The methodologies used are sparking breakthroughs in entrepreneurship financial management supply chain management and sustainability management Other contributions deal with the important process of digitization which underlies the Industry 4

0 idea and raises issues across the fields discussed in this volume. Related areas such as management information systems and business philosophies that adapt and use contemporary approaches to maximize organizational knowledge feature among the contributions. Similarly reflecting the role of small and medium sized enterprises in catalyzing economic growth, part of the book focuses on a set of tools and techniques designed for their benefit. This book assembles contributions from international sources that will help researchers and students interested in industrial and business management to tackle problems that persist from the economic crisis of the late 2000s right up to those that arise as a result of the COVID 19 pandemic of the early 2020s.

Strategy Savvy Hesham Dinana, 2022-08-11. With the COVID 19 pandemic many business leaders question the need for strategy and the value of strategic planning and management in today's environment. This book will demonstrate that our approach to strategy development and implementation needs to change to be able to help organizations change. The proposed new approach in this book can provide insights and perspectives to keep strategy relevant by Putting Strategy in Action through developing a Making the Future Happen Today way of thinking and living. Many strategy books focus on the perspective of large multinational corporations that have the capacity and capabilities to develop and implement a strategy using very structured methodologies and tools. This book will add a new dimension by focusing on the use of Strategy as Practice (SaP) intuition and serendipity as important complements that can be used by large corporations as well as small and medium sized enterprises (SMEs) and entrepreneurs to develop and implement winning strategies. This is an important dimension to support the strategic decision making process that is frequently undermined in traditional strategic planning and management focused books. The author theorizes that developing into a Strategy Savvy professional is about embracing two of the most important concepts in strategy development: Proactivity and Sustainability. This book addresses the opportunities and threats presented by VUCA (Volatility, Uncertainty, Complexity, and Ambiguity) and how we can capitalize on those opportunities to create unprecedented growth opportunities in Society 5.0 that is shaping new economies such as the Digital Economy, the Experience Economy, the Sharing Economy, the GIG Economy, the Purpose Economy, and the Circular Economy. The author also proposes a new approach to strategy development and implementation that mixes formal planning with practice and intuition that is helped by serendipity. He presents a strategy that is driven by four propellers: insights, culture, operations, and digitization to ensure arrival at a better future.
