Consider What the Angels Say George DeVangelos, 2016-08-31 Our world now and throughout history has had conflicting accounts of the nature of God and man's relationship to this cosmic deity These conflicts have wrecked havoc within the societies of humanity to dangerous levels Mankind has relied upon his sacred and canonized scriptures to provide doctrinal absolutes for his religions but these absolutes differ and therefore cannot possibly all be correct at least in specific contexts However there exist a very mysterious book circulating worldwide that does have specific detailed and consistent answers to all of our questions The origin of this book is steeped in mystery and no human author has claimed ownership to its teachings which cover 2097 pages of intensive reading and exhaustive information This book is known as the Urantia Book and has been placed in the public domain The Urantia Book takes us from the conceptual locations within our segregated religious heritage and correctively re-calibrates our various belief systems which have been unavoidably limited and distorted by our world views throughout human history After its conceptual enhancements and adjustments the Urantia Book enlarges such informational details into an elevation of more exact universal levels of perception as an advancement of cosmic truth Consider What the Angels Say takes this expansive and intricately complicated book and presents a timesaving presentation of its teachings and gently correlates it with Christian doctrines and other religions as well as human philosophy and knowledge In this book the following questions will be answered What exactly is God and how does this phenomenon relate to infinite reality the time and space cosmos other spiritual beings and our world Exactly what is the Godhead Trinity and why is it a necessary foundation for the existence of universal reality What are angels and spiritual principalities What are their levels and types and how do they interface and interact between supernatural and human situations How does the historical Jesus Christ fit into the spiritual dimensions of reality How is he related to the one eternal God and how is Jesus an integral part of our soul salvation How was man physically created and what accounts for the variances in human biological races and how does this correlate with the theory of evolution What is the nature of the human soul and how is it translated into the eternal spiritual realities and how does it exist beyond death and what is its destiny How did mankind come to develop and organize his cultures and what part did supernatural spiritual beings play in the formulations of man's religious doctrines Why has there been so much tragedy hardship war disease and social discord throughout our history What is the nature of sin and why does evil even exist Something is not right what went wrong In all of the versions of religious theologies and doctrines worldwide no one book explains the details of these universal mysteries as completely and systematically as the Urantia Book it is truly a gift from the angels Consider What the

Angels Say is a concentrated effort forged from the heartfelt love and concern for humanity to introduce this majestic angelic book to all who are able to receive and benefit from its supernatural information **Your Evolving Soul** Byron

Belitsos,2017-05-25 Sparks of genuine revelation are contained in many religions and esoteric systems Your Evolving Soul declares that we've been graced with a new revelation for our time the little known Urantia Book which has quietly sold over one million copies in a dozen languages According to the author of this comparative analysis the disclosures about self soul and spirit in the Urantia Revelation stand alone in their coherence and richness of detail Your Evolving Soul is the first book to fully explain this advanced teaching for the ordinary reader offering clarity and inspiration for those on any path Belitsos compares the Urantia Book's futuristic teachings about the threefold design of the human self system to the models of selfhood proposed by many previous thinkers ranging from Plato and Saint Augustine to Carl Jung and Ken Wilber He provides essential context for this discussion by illuminating the relationship of the Urantia text to scientific psychology and to the world's religions with special emphasis on Christianity and Buddhism Your Evolving Soul also provides an introduction to the cosmology theology and philosophy of the Urantia teaching and reveals its many affinities with contemporary integral theory and modern theology Through his lucid interpretation of the Urantia Revelation the author offers a model of the human self and soul to be tested examined and compared not a finished truth to be accepted as doctrine Readers of this book will discover a plausible hypothesis of how our evolving soul becomes an immortal vehicle of our true identity They also learn how our soul making decisions can lead to the development of a creative loving unified and perfected personality now and into the afterlife [The Adventure of Being Human II: Mother Spirit Speaks](#) Jerry Lane,2015-03-01

The central deity personalities of the Urantia Revelation are humanity's spiritual parents Christ Michael or Jesus and his coequal partner Mother Spirit In this sequel to The Adventure of Being Human Lessons on Soulful Living from the Heart of the Urantia Revelation the focus is exclusively on Mother Spirit the all loving omnipresent mother of us all She is the reality behind all of the cherished notions of a divine mother throughout human history as well as the majestic source of the Holy Spirit and of life itself In this charming guide you will learn all about her and discover how she regards the unique challenges of being human She will explain why our lives on this complex and sometimes dangerous planet offer an ideal setting for our adventures of soul growth This book provides a selection of Mother Spirit's teachings from her many years of live transmission sessions along with rich supporting materials Her unprecedented and delightful instructions on the art of soulful living are more accessible than ever before **UFO Religions** Christopher Partridge,2012-11-12

The spectre of the UFO as popularized by shows such as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims
