The Varieties Of Religious Experience A Mentor Book:

The Varieties of Religious Experience William James, 1902 The Varieties of Religious Experience William James, 1902 The Varieties of Religious Experience is certainly the most notable of all books in the field of the psychology of religion and probably destined to be the most influential one written on religion in the twentieth century said Walter Houston Clark in Psychology Today The book was an immediate bestseller upon its publication in June 1902 Reflecting the pluralistic views of psychologist turned philosopher William James it posits that individual religious experiences rather than the tenets of organized religions form the backbone of religious life James's discussion of conversion repentance mysticism and hope of reward and fears of punishment in the hereafter as well as his observations on the religious experiences of such diverse thinkers as Voltaire Whitman Emerson Luther Tolstoy and others all support his thesis James's characteristic humor his ability to put down the pretentious and to be unpretentious and his willingness to take some risks in his choices of anecdotal data or provocative theories are all apparent in the book noted Professor Martin E Marty A reader will come away with more reasons to raise new questions than to feel that old ones have been resolved *The Varieties of Religious Experience* William James, 1929 Mysticism, Ineffability and Silence in Philosophy of Religion Laura E. Weed, 2023-01-13 The authors in this volume explore a wide variety of the contemporary approaches to mystical and religious experience to elucidate what religious experience is in its own terms and how its practitioners understand it This anthology features contributions that point out that contemporary studies of consciousness sociology hermeneutics neuroscience medicine and other fields are revealing that there is much more to be said for the inner life of a human's consciousness than reductionists and behaviorists will allow This book is one of very few that primarily takes the stance of academic practitioners explaining their own experience rather than that of academics trying to explain the phenomena away as really politics or sociology or delusion or psychological pathology or literary flights of fancy or an aberration of any of the other academic fields Most of the authors in this volume embrace the task of explaining and analyzing religious experience mysticism and the healing power of silence and presence using the resources of all of the academic disciplines as appropriate The essays contained analyze religious and non religious mystical and profoundly personal experiences across several world religions and in areas such as art and music as well as in solving personal crises such as family disruption and patriarchal oppression The authors address the subject matter through analyses of the frequent and destructive failures of language or just noise to capture or express the nuances of the inner life of a person It is this very ineffability of self that renders the spiritual emotional and interior life of individuals beyond cognition and perception of the straightforward sorts embraced by most cognitive disciplines The contributors come from a variety of cross disciplinary fields to bring forth the possibilities for an intuitive and creative rich and growing inner life for a human This text appeals to students researchers and practitioners The Religion Game, American Style Edward Stevens, 1976 **Stepping Out with the Sacred** Val Webb, 2010-09-30 The Art of Chi Kung: Making the Most of Your

With the Grain of the Universe Stanley Hauerwas,2002 This volume comprises Hauerwas Gifford Lectures Adopting his robust approach to theological questions Hauerwas here proposes that natural theology divorced from a full doctrine of God cannot help but distort the character of God and accordingly of the world in which human beings find themselves For Hauerwas those who bear crosses work with the grain of the universe As the author sees it the God who is worshipped and the world God created cannot be truthfully known without the cross which is why the knowledge of God and ecclesiology are interdependent Examining in turn the theologies of William James Reinhold Niebuhr and Karl Barth Hauerwas suggests how the truth fulfilling conditions of Christian speech have been compromised in the interest of developing an ethic for Christians in liberal social orders He argues that any attempt to provide an account of how Christian theological claims can tell us the way things are requires a correlative politics In theological terms such a politics is called church Finding Barth s theology a necessary corrective to the work of James and Niebuhr Hauerwas sees here a bold reclamation of the visibility of the gospel after Christendom and of a theology done without apology or reservation **Vivekananda, the Prophet of Human**
