The Wisdom Of The Gods Creating Consciously In A Conscious World:

The Wisdom of the Gods Betsy Jo Miller, 2006-05-18 The wisdom in this book defines who we are Gods who came into this now to create intentionally and joyfully and to repair conditions not working because of our ignorance of our creative ability

The Power of God's Consciousness James Grant, 2022-11-03 The Power of God's Consciousness was written to transform the lives and consciousness of mankind It was written to transform mankind from a sinful nature and more into fellowship with God When we read and study God's divine Word we realize how God's Word can become the bread of life for mankind God's Word must become the bread of life in our lives so that we can experience how God's Word is able to manifest itself in our lives We have to implement God's Word in our hearts and minds as God's Word becomes a part of our lives We have to develop the discipline in our lifestyles that reflect the life of Jesus Christ Everything that we do at this point in our lives should reflect our discipline and consciousness of God's divine Word in our hearts and is acted out in our lives When we have confidence and courage in God's divine Word we are better able to enhance and develop our faith in God We can only understand our purpose and reason for living through how we define God's consciousness in our lives Schleiermacher on

Christian Consciousness of God's Work in History Abraham Varghese Kunnuthara, 2008-01-01 This work is a fresh unusually lucid approach to Christian theology and interfaith dialogue from India Its basic aim is to examine the Christian consciousness of God's work in history redemption history within the entire history of the world It uses Christian Faith by Friedrich Schleiermacher 1768 1834 as its main text so as to view this theme in a reversed order from the way it is presented there This approach which centers on God's new creation in Christ leads to an incisive understanding of Christianity's relation to other modes of faith Throughout Dr Kunnuthara compares the thought of another Indian Christian leader steeped in Hindu thought Pandippedi Chenchiah 1886 1959 to enable renewed interfaith dialogue across a wide spectrum **The Microcosm**, 1885 *God-Conscious Organization and the Islamic Social Economy* Masudul Alam Choudhury, 2016-08-05

Can there be God conscious organizational behaviour in the real world of today's capitalist corporations and the alternatives In this overview of God consciousness as a moral awareness model of preference formation functions structures and programs of organization within the purview of institutions and society the authors explain and compare the major ethical issues of organizational behaviour and structure in Islamic economic theory and application By analysing the nature of inclusive organizations and institutions and the ethical preferences in Islamic choice framework the authors from Saudi Arabia Australia Malaysia Bangladesh Canada Indonesia and the UK can highlight individual aspects to show whether capitalist organizational behaviour is sustainable They describe how The Tawhidi epistemological framework governing conscious moral decision making by institutions and organization are used to establish the meaning and potential application of the concept of sustainability and whether organizational moral objectives achieve their goals of life fulfilment development Poverty alleviation and the equitable distribution of wealth and resources **Human Consciousness of God in the Book**

of Job Jeffrey Boss, 2010-05-13 Human Consciousness of God is the first commentary on the book of Job to trace Job's relationship with God in a work of universal spirituality. The most important and unique element in Jeffrey Boss' approach is his examination of Job from a psychological perspective. However, the work also takes into account the history of interpretation of the book, giving due attention to questions surrounding the text's coherence, authorship, and provenance. It is at the same time a valuable new commentary on the Hebrew Masoretic Text of Job. The book opens with an introduction enabling those unfamiliar with the book of Job or with recent scholarship to appreciate it and engage with it. Then follows the full commentary, which draws attention to the development of Job's character and his relationship with God. Finally, the author presents his conclusions, following the work together with a detailed bibliography.

From Existence To Life: The Science Of Self-Consciousness James Porter Mills, 1921. There has been a growing feeling in my mind that Health is too small a title with which to introduce a book that sets forth the noblest science that can possibly be formulated. Although health is one of the most desirable conditions in personal life and one of the most essential, yet it is but one of the ways of Life that are set forth in the book. It appears to me that *From Existence to Life: the Science of Self Consciousness* exactly covers the whole field of that which is herein formulated. It is a science for all round use, health being but one of the many modes of the Principle of All Knowledge, and so far as man is concerned, the science of self consciousness formulated correctly and made use of intelligently should satisfy the mind and comfort the heart in all the emergencies of self conscious life, enabling a man to hold on his way and grow stronger and stronger.

The Taboo of Subjectivity : Towards a New Science of Consciousness Department of Religious Studies, University of California. B. Alan Wallace, Visiting Lecturer, Santa Barbara, 2000-11-09. This book takes a bold new look at ways of exploring the nature, origins, and potentials of consciousness within the context of science and religion. Alan Wallace draws careful distinctions between four elements of the scientific tradition: science itself, scientific realism, scientific materialism, and scientism. Arguing that the metaphysical doctrine of scientific materialism has taken on the role of ersatz religion for its adherents, he traces its development from its Greek and Judeo-Christian origins, focusing on the interrelation between the Protestant Reformation and the Scientific Revolution. He looks at scientists' long-term resistance to the firsthand study of consciousness and details the ways in which subjectivity has been deemed taboo within the scientific community. In conclusion, Wallace draws on William James's idea for a science of religion that would study the nature of religious and, in particular, contemplative experience. In exploring the nature of consciousness, this groundbreaking study will help to bridge the chasm between religious belief and scientific knowledge. It is essential reading for philosophers and historians of science, scholars of religion, and anyone interested in the relationship between science and religion.

The Blossoming God Joshua Mekeza, 2006-10-29. The Blossoming God is a book of awakening and enlightenment that Christians have been yearning to find. Contains powerful meditations and statements of spiritual truth from an experienced missionary. Well-grounded advice on how to reach the heights of spiritual life. Reconnects

modern spiritual concepts such as Mind and oneness to their roots in early Christianity Insights into metaphysics as well as the blossoming effects of process theology Gain an understanding of the nature of reality that will greatly assist your walk in Christ and your prayer life Joshua offers a clear and deep view of God and Man Come to new realizations and enhance your faith with a better understanding of the whole picture Joshua explains the Incarnation and Resurrection with a depth that few offer Drawing on his studies in Protestant Catholic and Orthodox theology New Thought metaphysics and Process Theology Joshua takes you to the core teachings of Christianity Go beyond good and evil to discover the essence of God and humanity Learn the real nature of Cause and Effect as well as True Action Find oneness and union with God *Make the Divine Connection for a Spiritualized Consciousness* Betty Jane Rapin,2012-04-11 Betty Jane Rapin became a spiritual student of life at the age of four when she began having extra ordinary experiences which at that time she had no idea that the happenings were not common occurrences that others also have Throughout the seventy six years of her quest to find answers she learned many spiritual tips tools and techniques which have enabled her to make the divine connection and grasp the essence of her true selfSoul This Soul awareness made it possible for her to successfully make the divine connection and acquire a spiritualized consciousness a state of awareness that enables her to perceive life from an enlightened state Thus she has found contentmentunderstanding life from Soul perspective This of course is not with her always however she has learn how to align with Soul and the guidance of Holy Spirit when needed This expanded awareness enables her to experience the power of Gods love She shares with you a study plan she calls the Spiritual ABCs of daily life It helps maintain her spiritual connection with Holy Spirit Among other things she shows you how to stay focused believe in yourself keep motivated build spiritual strength open your heart to God acquire a spiritualized consciousness and expand your awareness to view life from Souls perspective This 360 observation of expanded awareness gives you the alertness to easily recognize and fully understand the oftensubtle power of Gods love **The Seat of Consciousness in Ancient Literature** Richard E. Lind,2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today **Technique,**

Discourse, and Consciousness David Lovekin, 2022-05-19 This study examines the French thinker Jacques Ellul 1912 1994 and his historical biblical and social analyses of how technology manipulates and impoverishes modern thought culture and language In the spirit of Georg Hegel and Ernst Cassirer Ellul explores how technology begins in myths stories and religion advances to tools and then develops into data algorithms and abstract systems which are detached from human bodies and communities Efficiency then becomes an absolute in all areas of human life and the mentality of technique becomes lost in its creations These modern symbols posing as ultimate human goods and values are denigrated by technique leaving humanity awash in clichs in groundless social media and in blathering slogans that sustain the illusion that politics and culture have now become

God's Autopsy and the Living Truth of Soul Hal Childs, 2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God's Autopsy reinterprets soul and God as historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung's psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself
