Officer, Nurse, Woman Kara Dixon Vuic, 2010-01-01 Winner 2010 Lavinia L Dock Award American Association for the History of Nursing An American Journal of Nursing Book of the Year in History and Public Policy I never got a chance to be a girl Kate O Hare Palmer lamented thirty four years after her tour as an army nurse in Vietnam Although proud of having served she felt that the war she never understood had robbed her of her innocence and forced her to grow up too quickly As depicted in a photograph taken late in her tour long hours in the operating room exhausted her both physically and mentally Her tired eyes and gaunt face reflected the weariness she felt after treating countless patients some dying some maimed all like her forever changed Still she learned to work harder and faster than she thought she could to trust her nursing skills and to live independently She developed a way to balance the dangers and benefits of being a woman in the army and in the war Only fourteen months long her tour in Vietnam profoundly affected her life and her beliefs Such vivid personal accounts abound in historian Kara Dixon Vuic s compelling look at the experiences of army nurses in the Vietnam War Drawing on more than 100 interviews Vuic allows the nurses to tell their own captivating stories from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service Vuic also explores the gender issues that arose when a male dominated army actively recruited and employed the services of 5 000 nurses in the midst of a growing feminist movement and a changing nursing profession Women drawn to the army s patriotic promise faced disturbing realities in the virtually all male hospitals of South Vietnam Men who joined the nurse corps ran headlong into the army s belief that women should nurse and men should fight *Officer Nurse Woman* brings to light the nearly forgotten contributions of brave nurses who risked their lives to bring medical care to soldiers during a terrible and divisive war

Gender and Peacebuilding Maureen P. Flaherty,Thomas G. Matyók,Sean Byrne,Hamdesa Tusó,2015-10-16 The twenty first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety freedom and dignity of all Despite efforts to equalize women s status in the world evidenced by changes in many international projects requiring a gender focus women and men experience most of the world in very different ways according to gender Further the reality is that humans who do not all fall neatly into one of these categories male or female often find their lives further challenged In the 1980s Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace Since then there have been books about women and war women working at grassroots levels to build peace women and transitional justice women and peace education and women s views of human security All of these works have contributed to the discourse of our changing world This book brings together some of those themes and voices and adds more with the final product being more than the sum of its parts We add to the conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is

but also what should be taught This section critiques today's efforts at teaching Peace and Conflict Studies and provides suggestions of how this important work might be shared in more open and equitable ways Part Three enters territory found even less in the PACS literature In this section our authors confront patriarchy engage in a discussion about the contribution queer theory makes to PACS and tussle with the notion of inclusivity with considerations of both gender and disability It then ends with a discussion about the contribution feminist methodologies make to PACS *When the War Was Over* Claire Duchen,Irene Bandhauer-Schoffmann,2010-07-15 Popular images of post war women represent them welcoming home the soldiers but this volume asks What happened next The contributors use a range of methodological approaches to encourage the reader to question traditional historiography the nature of the historical evidence the process of memory and the disparities between official discourse and personal narrative and between written visual and oral accounts **The**

Women and Wars Carol Cohn,2013-04-03 Where are the women In traditional historical and scholarly accounts of the making and fighting of wars women are often nowhere to be seen With few exceptions war stories are told as if men were the only ones who plan fight are injured by and negotiate ends to wars As the pages of this book tell though those accounts are far from complete Women can be found at every turn in the gendered phenomena of war Women have participated in the making fighting and concluding of wars throughout history and their participation is only increasing at the turn of the 21st century Women experience war in multiple ways as soldiers as fighters as civilians as caregivers as sex workers as sexual slaves refugees and internally displaced persons as anti war activists as community peace builders and more This book at once provides a glimpse into where women are in war and gives readers the tools to understand women's told and untold war experiences in the greater context of the gendered nature of global social and political life **Feminist Theory Reader**

Carole R. McCann,Seung-kyung Kim,2016-07-07 The fourth edition of the Feminist Theory Reader continues to challenge readers to rethink the complex meanings of difference outside of contemporary Western feminist contexts This new edition contains a new subsection on intersectionality New readings turn readers attention to current debates about violence against women sex work care work transfeminisms and postfeminism The fourth edition also continues to expand the diverse voices of transnational feminist scholars throughout with particular attention to questions of class Introductory essays at the beginning of each section bring the readings together provide historical and intellectual context and point to critical additional readings Five core theoretical concepts gender difference women's experiences the personal is political and
