The Wars Between England and America Theodore Clarke Smith, 1914 **The Wars Between England and America (Classic Reprint)** Theodore Clarke Smith, 2016-10-07 Excerpt from *The Wars Between England and America* The purpose of this volume is to show how social economic and political causes led to a period of almost continuous antagonism between England and the American communities from 1763 to the ratification of the Treaty of Ghent in 1815 The war of American Independence 1775 1783 and the war of 1812 1815 give their names to the book not because of their military or naval importance but because they mark in each case the outcome of successive years of unavailing efforts on the part of each country to avoid bloodshed With this aim in view no more detailed study of the internal political history or institutions of either country can be included than is necessary to account for different political habits nor can the events of diplomatic history be developed beyond What is called for to explain persistent lines of action or the conclusion of a significant treaty About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
