In lively direct language it explains the process of creating a clearly written argument based on evidence about the meaning, power, or structure of a literary work. Using a single poem by William Carlos Williams as the basis for the process of writing a paper about a piece of literature, it walks students through the processes of reading, brainstorming, researching, secondary sources, gathering evidence, and composing and editing the paper. *Writing Essays About Literature* is designed to strengthen argumentation skills and deepen understanding of the relationships between the reader, the author, the text, and critical interpretations.
