The Wizard Within The Krasner Method Of Hypnotherapy:

The Wizard Within A. M. Krasner, 1990-01-01 *Spirituality and Alternativity in Contemporary Japan* Ioannis Gaitanidis, 2022-10-20 This book critically analyses the creation and effects of spirituality as both discourse and practice in Japan It shows how the value of spirituality has been sustained by scholars who have wished for a more civic role for religion by the publishing industry whose exponential growth in the 1980s fashioned those who later identified as the representatives of this new spirituality culture by spiritual therapists who have sought to eke out a livelihood in an increasingly professionalized and regulated therapeutic field and by the cruel optimism of an increasingly precarious workforce placing its hopes in the imagined alternative that the supirichuaru represents Ioannis Gaitanidis offers a new transdisciplinary conceptualisation of alternativity that can be applied across and beyond the disciplines of religious studies media studies popular culture studies and the anthropology sociology of medicine

The Encyclopedia of Hypnotherapy, Stage Hypnosis and Complete Mind Therapy Jonathan Royle,2013-01-07

excellent and far superior to the recognized course His therapy skills are equal if not greater than the majority of therapists I have met to date and he teaches everything he knows in an open and honest manner We need people like Royle to raise the profile of Hypnosis and I would recommend his courses to anyone who wants to become a better Hypnotist Dr WILF ARCHER PhD www.mindskills.co.uk A few years ago I attended a training run by Paul McKenna Michael Breen and Richard Bandler it was good and I learned a lot but Jonathan Royle's training course makes them seem like old nannies There is absolutely no time wasting or useless information and Royle's unique manner of teaching makes everything very easy to learn and remember This course is without doubt money well spent FRANK LEA www.hypnotherapycoventry.net The course contains much unique material which as far as I know is not taught anywhere else and will certainly make you a better Hypnotist and Therapist especially when presenting any public demonstrations DAVID BOTSFORD www.stopsmokingsolutions.co.uk Having previously done a more conventional approved NLP course which took many days and cost lots of money I would have said it was impossible to learn NLP in just two days However after attending Royle's course I can honestly say that this is exactly what he does and he also teaches you what you need to know about clinical Hypnosis and his own approach of Complete Mind Therapy in short this course is a worthwhile investment DEZ SELLARS www.completemindtherapy.com Indeed many of Royle's Students have stated that this book teaches more of use in the real world of Hypnotherapy and Stage Hypnosis than all of the others on the market put together
