Torts and Personal Injury Law William R. Buckley, Cathy J. Okrent, 2004 Most of the cases in Torts and Personal Injury Law have been decided since 2000 making this the most up to date text available on this area of law The text features the most memorable cases and examples to make the content thought provoking and of great interest to the student In particular it addresses computer tort cases which are timely and generally attract students attention Tort and Injury Law Marshall S. Shapo, 1990 Tort Law and the Legislature TT Arvind, Jenny Steele, 2012-12-21 The study of the law of tort is generally preoccupied by case law while the fundamental impact of legislation is often overlooked At a jurisprudential level there is an unspoken view that legislation is generally piecemeal and at best self contained and specific at worst dependent on the whim of political views at a particular time With a different starting point this volume seeks to test such notions illustrating among other things the widespread and lasting influence of legislation on the shape and principles of the law of tort the variety of forms of legislation and the complex nature of political and policy concerns that may lie behind their enactment the sometimes unexpected consequences of statutory reform and the integration not only of statutory rules but also of legislative policy into the operation of tort law today The apparently sharp distinction between judicially created private law principles and democratically enacted legislative rules and policies is therefore questioned and it is argued that to describe the principles of the law of tort without referring to statute is potentially highly misleading This book shows that legislation is important not only because of the way it varies or replaces case law but because it also deeply influences the intrinsic character of that law providing some of its most familiar characteristics The book provides the first extended interpretation of legislative intervention in the law of tort Each of the chapters by leading tort scholars deals with an aspect of the influence of legislation on the law of tort While the nature sources and extent of legislative influence in personal injury law is an essential feature of the collection other significant areas of tort law are explored including tort in the context of commercial law labour law regulation and the welfare state Essays on the Compensation Act 2006 and Human Rights Act 1998 bring the current state of the interplay between tort politics and legislation to the forefront In all of these contexts contributors explore

the deeper lessons that can be learned about the nature of the law of tort and its changing role and functions over time Cited with approval in the Singapore Court of Appeal by VK Rajah JA in *See Toh Siew Kee vs Ho Ah Lam Ferrocement Pte Ltd and others* 2013 SGCA 29

Towards a Public Law of Tort Tom Cornford, 2016-02-24 Presenting a new approach to the problem of public authority liability this volume provides a theoretical foundation in the form of principles of administrative liability that are both normatively sound and consonant with other recognized legal principles These principles are used as criteria by which to judge the current law and as a guide to reform Such reform could be brought about by judicial development of the law and this volume explains how It considers both the procedural and the substantive divides between public and private law and explains the proposed solution's relation to the forms of public authority liability already present under European Community law and the Human Rights Act Focusing in particular on UK law the book is also relevant to other Commonwealth countries and will be of interest to scholars and practitioners of both tort and public law

Doing Away With Personal Injury Law Stephen D. Sugarman, 1989-07-07 Although personal injury law has been much criticized by legal groups insurers health care providers the business community legislators victims and others no concrete legal reforms have been enacted that would create a more equitable compensation system for accident victims of all sorts In this volume Sugarman offers both a penetrating critique of current personal injury law and a pioneering proposal for new compensation arrangements and new mechanisms for controlling unreasonably dangerous conduct Sugarman argues persuasively that personal injury law as it is currently constructed generates more perverse behavior than desired safety that it is an intolerably expensive and unfair system of compensating victims and that in practice it fails to serve any commonsense notion of justice His solution is the abolition of personal injury law and the institution of reforms based on social insurance and employee benefits Sugarman begins by examining the justifications advanced in support of existing personal injury law demonstrating that these goals are either unachieved or inefficiently pursued He argues that current tort law discourages business innovation undermines our health care system diverts the time and attention of engineers executives and others from their main tasks leaves many victims uncompensated while allowing others inappropriate punitive damages artificially inflates insurance costs and more In the second section Sugarman criticizes already proposed reforms arguing that they do not go nearly far enough to address the serious shortfalls of the current system Finally Sugarman delineates his own three part reform proposal eliminate tort remedies for accidental injuries build on existing social insurance and employee benefit plans to assure generous yet fair compensation to all accident victims and build on existing regulatory schemes to promote accident avoidance and to provide effective outlets for public complaints Practicing attorneys lobbyists policymakers and business consumer and insurance leaders will find *Doing Away with Personal Injury Law* a provocative contribution to the continuing debate on the best means of reforming the victim compensation system

Damages and Compensation Culture Eoin Quill,Raymond J Friel,2016-11-17 The focus of the essays in this book is on the relationship between compensation culture social values and tort damages for personal injuries A central concern of the public and political perception of personal injuries claims is the high cost of tort claims to society reflected in insurance premiums often accompanied by an assumption that tort law and practice is flawed and improperly raising such costs The aims of this collection are to first clarify the relationship between tort damages for personal injuries and the social values that the law seeks to reflect and to balance then to critically assess tort reforms including both proposals for reform and actual implemented reforms in light of how they advance or hinder those values Reforms of substantive and procedural law in respect of personal injury damages are analysed with perspectives from England and Wales Canada Australia Ireland and continental Europe The essays offer valuable insights to anyone interested in the reform of tort law or the tort process in respect of personal injuries [WebTutor? on Blackboard® Printed Access Card for Statsky's Torts](#) Delmar Cengage

Compensation for Personal Injury in English, German and Italian Law Basil Markesinis,Michael Coester,Guido Alpa,Augustus Ullstein,2005-02-24 Cross border claims for personal injuries are becoming more common Furthermore European nationals increasingly join class actions in the USA These tendencies have created a need to know more about the law of damages in Europe and America Despite the growing importance of this subject there is a dearth of material available to practitioners to assist them in advising their clients as to the heads of damage recoverable in other countries This book aims to fill that gap by looking at the law in England Germany and Italy It sets out the raw data in the wider context of tort

law then provides a closer synthesis largely concerned with methodological issues and draws some comparative conclusions
