

The sleek 32C120U series delivers performance and value with connectivity options including USB, HDMI and PC Input. Bring HD entertainment into every room of your home with the versatile 32C120U series.

Advantages

DYNALIGHT

Monitors the brightness level of each video frame and automatically adjusts the backlight intensity based on the image content. The result is a deeper black level that increases detail and depth even in low light environments.

HDMI X2

Digital input for the premium in high definition connectivity. An HDMI cable can transfer digital video and multi channel audio to compatible home theatre components and high definition televisions without the need to scale down or compress the signal. A single cable can deliver the best in picture and sound quality.

USB MEDIA

Expand your entertainment options with the USB Input. Just simply plug in a USB flash drive loaded with digital photos from your PC, and start enjoying them with the built-in easy to use media player.

Toshiba's innovative video processing allows for shortened signal time (also known as input lag) from the video game console to the screen. Also, by eliminating overscanning, or cropping which hides up to 8% of the perimeter of screen, the entire image can be displayed. Now you can respond faster, see the entire screen and get the edge over the competition. Play the game the way it's meant to be played.

Want big sound, but a sleek design for today's contemporary living spaces? Audyssey ABX allows the TV's bottom mounted small speakers to produce big bass while Dynamic EQ audio processing technology brings out intricate audio details at all volume levels. Hear clear and crisp sound for all of your programming.
